

Calling all **FUTURE STEM FACULTY**

**Grad Course
ISTM 511
CRN: 26048**

**Registration is now open for the
graduate-level course ISTM 511:**

Foundations in Evidence-Based STEM Pedagogy

Winter Quarter 22-23

Tuesdays from 4:00 - 6:50 PM

The course is taught by Eric Brewé, Associate Professor in Physics and Science Education

Course attendees will:

- Engage as members of a community of discipline-based education research (DBER)
- Enact their skills at putting theory and experimental work into practice (in real educational settings)
- Establish a teaching philosophy
- Provided constructive criticism of STEM instruction

This course is the foundational course in PROFESS, a program that prepares graduate students for future academic faculty positions. To learn more click on the QR code below.
