## WHY WE INVENT

**AT MERCK, WE ARE INVENTING FOR LIFE.**

We are not inventing for invention's sake – we are on a quest to cure – and to have an impact on countless people's lives worldwide.

Merck is inventing because the world still needs cures for cancer, Alzheimer's disease, HIV, and so many other causes of widespread suffering in people and animals.

We are taking on the world's most challenging diseases to help people go on, unburdened, to experience, create and live their best lives.

Merck. **Inventing** for Life.

***The dress code for this seminar is business casual.***
