

2022-2023 Faculty Evaluation – CV Checklist

To streamline the faculty evaluation process, the 2022-2023 evaluation will be completed online using Career Pathway. The online system offers the following advantages:

- Little need to copy and paste teaching, research, and service metrics from system to system; most should be included in the CV which you will upload when completing your evaluation, and department heads and their delegates will have access to the source systems, including Banner and AEFIS.
- Electronic storage in a single system, providing future access with no need to scan paper evaluations and send them to Faculty Advancement or Human Resources.

Before uploading your CV to the online system, please **highlight in yellow** any new achievements or works in progress so the department head can pay particular attention to new content. Also include the following items in your CV, as appropriate.
