INTRODUCTION

Thank you for joining QCC Insurance Company (the Claims Administrator). Our goal is to provide Members with access to quality health care coverage. This Benefit Booklet is a summary of the Members benefits and the procedures required in order to receive the benefits and services to which Members are entitled. Members’ specific benefits covered by the Claims Administrator are described in the Description of Covered Services section of this Benefit Booklet. Benefits, exclusions and limitations appear in the Exclusions – What Is Not Covered and the Schedule of Covered Services sections of this Benefit Booklet.

Please remember that this Benefit Booklet is a summary of the provisions and benefits provided in the Program selected by the Member's Group. Additional information is contained in the Group Program Document available through the Member’s Group benefits administrator. The information in this Benefit Booklet is subject to the provisions of the Group Program Document. If changes are made to the Members Group’s Program, the Member will be notified by the Members Group benefits administrator. Group Program Document changes will apply to benefits for services received after the effective date of change.

If changes are made to this Program, the Member will be notified. Changes will apply to benefits for services received on or after the effective date unless otherwise required by applicable law. The effective date is the later of:

- The effective date of the change;
- The Members Effective Date of coverage; or
- The Group Program Document anniversary date coinciding with or next following that service’s effective date.

Please read the Benefit Booklet thoroughly and keep it handy. It will answer most questions regarding the Claims Administrator's procedures and services. If Members have any other questions, they should call the Claims Administrator’s Customer Service Department ("Customer Service") at the telephone number shown on the Members Identification Card ("ID Card").

Any rights of a Member to receive benefits under the Group Program Document and Benefit Booklet are personal to the Member and may not be assigned in whole or in part to any person, Provider or entity, nor may benefits be transferred, either before or after Covered Services are rendered. However, a Member can assign benefit payments to the custodial parent of a Dependent covered under the Group Program Document and Benefit Booklet, as required by law.

See Important Notices section for updated language and coverage changes that may affect this Benefit Booklet.

SCHEDULE OF COVERED SERVICES

This Schedule of Covered Services is an overview of the benefits you are entitled to. More details can be found in the Description of Covered Services section.

Subject to the exclusions, conditions and limitations of this Program, a Member is entitled to benefits for the Covered Services described in this Schedule of Covered Services during a Benefit Period, subject to any Copayment, Deductible, Coinsurance, Out-of-Pocket Limit or Lifetime Maximum. The percentages for Coinsurance and Covered Services shown in this Schedule of Covered Services are not always calculated on actual charges. For an explanation on how Coinsurance is calculated, see the "Covered Expense" definition in the Important Definitions section.

Some Covered Services must be Precertified before the Member receives the services. Failure to obtain a required Precertification for a Covered Service could result in a reduction of benefits. More information on Precertification is found in the General Information section.

DESCRIPTION OF COVERED SERVICES

Subject to the exclusions, conditions and limitations of this Program, a Member is entitled to benefits for the Covered Services described in this Description of Covered Services section during a Benefit Period, subject to any Copayment, Deductible, Coinsurance, Out-of-Pocket Limit or Lifetime Maximum. These amounts and percentages, and other cost-sharing requirements are specified in the Schedule of Covered Services.

Covered Services may be provided by either an In-Network or Out-of-Network Provider. However, the Member will maximize the benefits available when Covered Services are provided by a Provider that belongs to the PHO or Personal Choice Network (an In-Network Provider) and has a contract with the Claims Administrator to provide services and supplies to the Member. The Member will be held harmless for Out-of-Network differentials if: an In-Network Provider fails to provide written notice to the Member of the Provider’s Out-of-Network status for certain services; or, an In-Network Provider provides a written order for certain services to be performed by an In-Network Provider that has Out-of-Network status for those services and that Provider performs such service. The General Information section provides more detail regarding In-Network and Out-of-Network Providers, the PHO or Personal Choice Network, and the reimbursement of Covered Services provided by Facility Providers and Professional Providers.

Some Covered Services must be Precertified before the Member receives the services. Precertification of services is a vital program feature that reviews Medical Necessity of certain procedures and/or admissions. In certain cases, Precertification helps determine whether a different treatment may be available that is equally effective yet less traumatic. Precertification also helps determine the most appropriate setting for certain services. Failure to obtain a required Precertification for a Covered Service could result in a reduction of benefits. More information on Precertification is found in the General Information section.

PRIMARY AND PREVENTIVE CARE

A Member is entitled to benefits for Primary Care and Preventive Care Covered Services when deemed Medically Necessary and billed for by a Provider. Cost-sharing requirements are specified in the Schedule of Covered Services.

These services are performed when the Member has no symptoms of disease. "Primary Care" services generally describe health care services performed to treat an illness or injury.

- The American Academy of Pediatrics;
- The American College of Physicians;
- The U.S. Preventive Services Task Force; and
- The American Cancer Society.
Accordingly, the frequency and eligibility of Covered Services are subject to change. A list of Preventive Care Covered Services can be found in the Preventive Schedule document. A complete listing of recommendations and guidelines can be found at https://www.healthcare.gov/preventive-care-benefits/.

The Claims Administrator reserves the right to modify the Preventive Schedule document at any time. However, the Member has to be given a written notice of the change, before the change takes effect.

Eligible Person

Eligibility shall not be affected by the Employee's physical condition and determination of eligibility for the coverage by the employer shall be final and binding.

The Member will receive written notice at least 30 days prior to termination but will have the right to utilize the Complaint and Appeal Process to appeal cancellation.

Conversion coverage shall not be available if the Member is eligible for another health care program which is available in the Group where the Member is employed or with which the Member is affiliated to the extent that the conversion coverage would result in over-insurance.

If the Member's coverage or the coverage of the Member’s eligible dependent terminates because of the Member's death, the Member's change in employment status, divorce of dependent spouse, or change in a dependent's eligibility status, the terminated Member will be eligible to apply within 31 days of termination (or termination of the continuation privileges under COBRA) to conversion coverage, of the type for which that Member is then qualified at the rate then in effect. This conversion coverage may be different from the coverage provided under this Program. Evidence of insurability is not required.

Coverage under this Program will apply during an extension as if the Member was still a Member. In addition, coverage will apply only to the extent that other coverage for the Covered Services is not provided for the Member through the Claims Administrator by the Group. Continuation of coverage is subject to payment of the applicable premium.
Continuation Of Incapacitated Child

If an unmarried child is incapable of self-support because of mental or physical incapacity and is dependent on the Member (an enrolled Employee) for over half of the child's support, the Member may apply to the Claims Administrator to continue coverage of such child under this Program upon such terms and conditions as the Claims Administrator may determine. Coverage of such Dependent child shall terminate upon the child's marriage. Continuation of benefits under this provision will only apply if the child was eligible as a Dependent and mental or physical incapacity commenced prior to age 26.

The child must be unmarried, incapable of self-support and the disability must have commenced prior to attaining 26 years of age. The disability must be certified by the attending Physician; furthermore, the disability is subject to annual medical review. In a case where a handicapped child is over 26 years of age and joining the Claims Administrator for the first time, the handicapped child must have been covered under the prior Claims Administrator and submit proof from the prior Claims Administrator that the child was covered as a handicapped person.

When The Employee Terminates Employment - Continuation Of Coverage Provisions Consolidated Omnibus Budget Reconciliation Act Of 1985, As Amended (COBRA)

The Employee should contact their Employer for more information about COBRA and the events that may allow the Employee or the Employee's eligible Dependents to temporarily extend health care coverage.

INFORMATION ABOUT PROVIDER REIMBURSEMENT

The Member's PHO or Personal Choice Network Plan (this Program) is a program, which allows the Member to maximize the Member's health care benefits by utilizing the PHO or Personal Choice Network, which is comprised of Providers that have a contractual arrangement with the Claims Administrator. These Providers are called "In-Network Providers". In-Network Providers are doctors, Hospitals and other health care professionals and institutions that are part of the PHO or Personal Choice Network, which is designed to provide access to care through a selected managed network of Providers. Services by In-Network Providers are delivered through a selected, managed network of Providers designed to provide quality care. The PHO and Personal Choice Networks include Hospitals, Primary Care Physicians and specialists, and a wide range of Ancillary Service Providers, including suppliers of Durable Medical Equipment, Hospice care and Home Health Care Agencies, Skilled Nursing Facilities, Free Standing Dialysis Facilities and Ambulatory Surgical Facilities.

When the Member receives health care through a PHO Provider, the Member will receive the highest level of benefits; and the Member is assured of less out-of-pocket expenses. When the Member receives health care through a Provider that is a member of the Personal Choice Network, the Member incurs limited out-of-pocket expenses. There are no claim forms to fill out when the Member receives health care through a Provider that is a member of the Personal Choice Network. Benefits are also provided if the Member chooses to receive health care through a Provider that is not an In-Network Provider. However, the level of benefits will be reduced, and the Member will be responsible for a greater share of out-of-pocket expenses, and the amount of the Member's expenses could be substantial. The Member may have to reach a Deductible before receiving benefits, and the Member may be required to file a claim form.
A directory that lists the PHO Providers that belong to the PHO Network and the Personal Choice Providers who belong to the Personal Choice Network is available to the Member upon request. It will identify the Professional Providers who have agreed to become In-Network Professional Providers and will also identify the Hospitals in the Network with which the In-Network Professional Providers are affiliated. Also included in the directory is a listing of the Ancillary Service Providers affiliated with the PHO or Personal Choice Network. The directory is updated periodically throughout the year, and the Claims Administrator reserves the right to add or delete Physicians and/or Hospitals at any given time. It is important to know that continued participation of any one doctor, Hospital or other Provider cannot be guaranteed. For information regarding Providers that participate in the PHO or Personal Choice Network, call 1-800-ASK BLUE (TTY: 711).

The Claims Administrator covers only care that is "Medically Necessary". Medically Necessary care is care that is needed for the Member's particular condition and that the Member receives at the most appropriate level of service. Examples of different levels of service are Hospital Inpatient care, treatment in Short Procedure Units and Hospital Outpatient Care.

Some of the services the Member receives through this Program must be Precertified before the Member receives them, to determine whether they are Medically Necessary. Failure to Precertify services to be provided by an Out-of-Network Provider, when required, may result in a reduction of benefits. There is a $1,000 Penalty for failure to preauthorize Inpatient services or treatment, and a 20% reduction in benefits for failure to preauthorize Outpatient services or treatment. Precertification of services is a vital program feature that reviews the Medically Necessary of certain procedures/admissions. In certain cases, Precertification helps determine whether a different treatment may be available that is equally effective. Precertification also helps determine the most appropriate setting for certain services. Innovations in health care enable doctors to provide services, once provided exclusively in an Inpatient setting, in many different settings - such as an Outpatient department of a Hospital or a doctor's office.

When the Member seeks medical treatment that requires Precertification, the Member is not responsible for obtaining the Precertification if treatment is provided by an In-Network Provider (That is, a Provider in the PHO or Personal Choice Network). In addition, if the In-Network Provider fails to obtain a required Precertification of services, the Member will be held harmless from any associated financial Penalties assessed by the Program as a result. If the request for Precertification is denied, the Member will be notified in writing that the admission/service will not be paid because it is considered to be medically inappropriate. If the Member decides to continue treatment or care that has not been approved, the Member will be asked to do the following:

- Acknowledge this in writing.
- Request to have services provided.
- State the Member's willingness to assume financial liability.

When the Member seeks treatment from an Out-of-Network Provider or a BlueCard Provider (excluding Inpatient Admissions), the Member is responsible for initiating the Precertification process. The Member or the Member's Provider should call the Precertification number listed on the Member's Identification Card, and give their name, facility's name, diagnosis, and procedure or reason for admission. Failure to Precertify required services will result in a reduction of benefits payable to the Member.
Payment Of Providers

- **In-Network Provider Reimbursement**

  Personal Choice reimbursement programs for health care Providers are intended to encourage the provision of quality, cost-effective care for Personal Choice members. Set forth below is a general description of Personal Choice reimbursement programs, by type of PHO or Personal Choice Network health care Provider.

  Please note that these programs may change from time to time, and the arrangements with particular Providers may be modified as new contracts are negotiated. If the Member has any questions about how the Member's health care Provider is compensated, the Member should speak to their healthcare Provider directly or contact Customer Services.

  - **Physicians**
    
    PHO or Personal Choice Network Physicians, including Primary Care Provider (PCPs) and specialists, are paid on a fee-for-service basis, meaning that payment is made according to the Claims Administrator’s Personal Choice fee schedule for the specific medical services that the Physician performs.

  - **Institutional Providers**
    
    **Hospitals:** For most Inpatient medical and surgical services, Hospitals are paid per diem rates, which are specific amounts paid for each day a Member is in the Hospital. These rates usually vary according to the intensity of the Covered Services provided. Some Hospitals are also paid case rates, which are set dollar amounts paid for a complete Hospital stay related to a specific procedure or diagnosis, (For example, transplants). For most Outpatient and Emergency Services and procedures, most Hospitals are paid specific rates based on the type of Covered Service performed. For a few Covered Services, Hospitals are paid based on a percentage of billed charges. Most Hospitals are paid through a combination of the above payment mechanisms for various services.

    The Claims Administrator implemented a quality incentive program with a few Hospitals. This program provides increased reimbursement to these Hospitals based on them meeting specific quality criteria, including "Patient Safety Measures". Such patient safety measures are consistent with recommendations by the President’s Advisory Commission on Consumer Protection and Quality in the Health Care Industry and are designed to help reduce medical and medication errors. Other criteria are directed at improved patient outcomes, higher nursing staff ratios, and electronic submissions. This is a new incentive program that is expected to evolve over time.

    Skilled Nursing Facilities, Rehabilitation Hospitals, and other care facilities: Most Skilled Nursing Facilities and other special care facilities are paid per diem rates, which are specific amounts paid for each day a Member is in the facility. These amounts may vary according to the intensity of the Covered Services provided.

    Ambulatory Surgical Facilities (ASFs): Most ASFs are paid specific rates based on the type of Covered Service performed. For a few services, some ASFs are paid based on a percentage of billed charges.
Physician Group Practices, Physician Associations and Integrated Delivery Systems
Certain physician group practices, independent physician associations (IPAs) and integrated hospital/physician organizations called Integrated Delivery Systems (IDS) employ or contract with individual Physicians to provide medical services. These groups are paid as described in the Physician's reimbursement section outlined above. These groups may pay their affiliated Physicians a salary and/or provide incentives based on production, quality, service, or other performance standards.

Ancillary Service Providers, certain Facility Providers and Mental Health/Psychiatric Care and Alcohol Or Drug Abuse And Dependency Providers, Ancillary Service Providers, such as Durable Medical Equipment Providers, laboratory Providers, Home Health Care Agencies, and mental health/psychiatric care and Alcohol and Drug Abuse Providers are paid on the basis of fee-for-service payments according to the Claims Administrator’s Personal Choice fee schedule for the specific Covered Services performed. In some cases, such as for mental health/psychiatric care and Alcohol and Drug Abuse benefits, one vendor arranges for all such services through a contracted set of providers. The Claims Administrator reimburses the contracted Providers of these vendors on a fee-for-service basis. An affiliate of Independence Blue Cross has less than a 3% ownership interest in this mental health/psychiatric care and Alcohol and Drug Abuse vendor.

Payment of Out-of-Network Providers
For Covered Services received from and Out-of-Network Provider, not successfully negotiated through the Price Protection Program payment will be made directly to the Member and the Member will be responsible for reimbursing the Out-of-Network Provider. However, Claims Administrator reserves the right, in its sole discretion, to make payments directly to the Out-of-Network Provider.

Payment Methods
A Member or the Provider may submit bills directly to the Claims Administrator, and, to the extent that benefits are payable within the terms and conditions of this Benefit Booklet, reimbursement will be furnished as detailed below. The Member’s benefits for Covered Services are based on the rate of reimbursement as set forth under "Covered Expense" in the Important Definitions section of this Benefit Booklet.

Facility Providers
In-Network Facility Providers
In-Network Facility Providers are members of the PHO or Personal Choice Network and have a contractual arrangement with the Claims Administrator for the provision of services to Members. Benefits will be provided as specified in the Schedule of Covered Services for Covered Services which have been performed by an In-Network Facility Provider. The Claims Administrator will compensate In-Network Facility Providers in accordance with the contracts entered into between such Providers and the Claims Administrator. BlueCard Providers will be compensated by the Blue Cross and Blue Shield Plans with which they contract. No payment will be made directly to the Member for Covered Services rendered by any In-Network Facility Provider.
Out-of-Network Facility Providers
Out-of-Network Facility Providers include facilities that are not part of the Personal Choice Network. The Claims Administrator may have a contractual arrangement with a facility even if it is not part of the PHO or Personal Choice Network.

The Claims Administrator will provide benefits for Covered Services provided by an Out-of-Network Facility Provider at the Out-of-Network Coinsurance level specified in the Schedule of Covered Services. The reimbursement rate is specified under "Covered Expense" in the Important Definitions section of this Benefit Booklet.

If the Claims Administrator determines that Covered Services were for Emergency Care as defined herein, the Member normally will not be subject to the cost-sharing Penalties that would ordinarily be applicable to Out-of-Network services. Emergency admissions must be certified within two business days of admission, or as soon as reasonably possible, as determined by the Claims Administrator. Payment for Emergency Services provided by Out-of-Network Providers will be the negotiated amount through the Price Protection Program, or the greater of:
- The median of the amounts paid to In-Network Providers for Emergency Services;
- The amount paid to Out-of-Network Facility Providers; or
- The amount paid by Medicare.

Once Covered Services are rendered by a Facility Provider, the Claims Administrator will not honor a Member's request not to pay for claims submitted by the Facility Provider. The Member will have no liability to any person because of its rejection of the request.

Professional Providers
In-Network Providers
The Claims Administrator is authorized by the Member to make payment directly to the In-Network Professional Providers furnishing Covered Services for which benefits are provided under this Program. In-Network Professional Providers have agreed to accept the rate of reimbursement determined by a contract as payment in full for Covered Services. BlueCard Providers will be compensated by the Blue Cross and Blue Shield Plans with which they contract. In-Network Professional Providers will make no additional charge to Members for Covered Services except in the case of certain Copayments, Coinsurance or other cost-sharing features as specified under this Program. The Member is responsible within 60 days of the date in which the Claims Administrator finalizes such services to pay, or make arrangements to pay, such amounts to the In-Network Professional Provider.

Benefit amounts, as specified in the Schedule of Covered Services of this Program, refer to Covered Services rendered by a Professional Provider which are regularly included in such Provider's charges and are billed by and payable to such Provider. Any dispute between the In-Network Professional Provider and a Member with respect to balance billing shall be submitted to the Claims Administrator for determination. The decision of the Claims Administrator shall be final.
Once Covered Services are rendered by a Professional Provider, the Claims Administrator will not honor a Member's request not to pay for claims submitted by the Professional Provider. The Claims Administrator will have no liability to any person because of its rejection of the request.

- Emergency Care by Out-of-Network Providers
  If the Claims Administrator determines that Covered Services provided by an Out-of-Network Provider were for Emergency Care, the Member will be subject to the In-Network cost-sharing levels. Penalties that ordinarily would be applicable to Out-of-Network Covered Services will not be applied. For Emergency Care, not successfully negotiated through the Price Protection Program, the Claims Administrator will reimburse the Member for Covered Services at the Out-of-Network Provider reimbursement rate. However, if Emergency Care is provided by certain Out-of-Network Providers (For example, ambulance services), in accordance with applicable law, the Claims Administrator will reimburse the Out-of-Network Provider at an In-Network rate directly. In this instance the specified Out-of-Network Provider will not bill the Member for amounts in excess of the Claims Administrator's payment for the Emergency Care. For payment of Covered Services provided by an Out-of-Network Providers, please refer to the definition of "Covered Expense" in the Important Definitions section of this Benefit Booklet. Inpatient admissions for Emergency Care must be certified within two business days of admission, or as soon as reasonably possible, as determined by the Claims Administrator. Payment for Emergency Services provided by Out-of-Network Providers will be the negotiated amount through the Price Protection Program, or the greater of:
    - The median of the amounts paid to In-Network Providers for Emergency Services;
    - The amount paid to Out-of-Network Professional Providers; or
    - The amount paid by Medicare.

Unless a claim is successfully negotiated through the Price Protection Program, an Out-of-Network Provider who provided Emergency Care can bill the Member directly for their services, for either the Provider’s charges or amounts in excess of the Claims Administrator’s payment for the Emergency Care, (That is, balance billing). In such situations, Emergency Care claims eligible for the balance bill advocacy services of the Price Protection Program may be initiated by the Member contacting the Claims Administrator. The Member will need to contact the Claims Administrator at the Customer Service telephone number listed on the Member's I.D. card. For Emergency Care claims that are ineligible for balance bill advocacy services of the Price Protection Program, the Member should still contact the Claims Administrator. Upon such notification, the Claims Administrator will resolve the balance-billing for Emergency Care claims ineligible for the balance bill advocacy services of the Price Protection Program.
Out-of-Network Hospital-Based Provider Reimbursement
When the Member receives Covered Services from an Out-of-Network Hospital-Based Provider while the Member is an Inpatient at an In-Network Hospital or other In-Network Facility Provider and are being treated by an In-Network Professional Provider, the Member will receive the In-Network cost-sharing level of benefits for the Covered Services provided by the Out-of-Network Hospital-Based Provider. For such Covered Services, not successfully negotiated through the Price Protection Program, payment will be made to the Member, who will be responsible for reimbursing the Out-of-Network Hospital-Based Provider. For payment of Covered Services provided by an Out-of-Network Professional Provider, please refer to the definition of "Covered Expense" in the Important Definitions section of this Benefit Booklet.

Unless a claim is successfully negotiated through the Price Protection Program, an Out-of-Network Hospital-Based Provider can bill the Member directly for their services, for either the Provider’s charges or amounts in excess of the Claims Administrator’s payment to the Out-of-Network Hospital-Based Providers, (That is, balance billing). In such situations, claims eligible for the balance bill advocacy services of the Price Protection Program may be initiated by the Member contacting the Claims Administrator. The Member will need to contact the Claims Administrator at the Customer Service telephone number listed on the Member’s I.D. card. For claims that are ineligible for balance bill advocacy services of the Price Protection Program, the Member should still contact the Claims Administrator. Upon such notification, the Claims Administrator will resolve the balance-billing for claims ineligible for the balance bill advocacy services of the Price Protection Program.

Note that when the Member elects to see an Out-of-Network Hospital-Based Provider for follow-up care or any other service where the Member has the ability to select an In-Network Provider, the Covered Services will be covered at an Out-of-Network benefit level. Except for Emergency Care, if an Out-of-Network Provider admits the Member to a Hospital or other Facility Provider, Covered Services provided by an Out-of-Network Hospital-Based Provider will be reimbursed at the Out-of-Network benefit level. For such Covered Services, not successfully negotiated through the Price Protection Program, payment will be made to the Member and the Member will be responsible for reimbursing the Out-of-Network Hospital-Based Provider. For payment of Covered Services provided by an Out-of-Network Professional Provider, please refer to the definition of "Covered Expense" in the Important Definitions section of this Benefit Booklet.

Inpatient Hospital Consultations by an Out-of-Network Professional Provider
When the Member receives Covered Services for an Inpatient hospital consultation from an Out-of-Network Professional Provider while the Member is Inpatient at an In-Network Facility Provider, and the Covered Services are referred by an In-Network Professional Provider, the Member will receive the In-Network cost-sharing level of benefits for the Inpatient hospital consultation.

For such Covered Services, not successfully negotiated through the Price Protection Program, payment will be made to the Member and the Member will be responsible for reimbursing the Out-of-Network Professional Provider. For payment of Covered Services provided by an Out-of-Network Professional Provider, please refer to the definition of "Covered Expense" in the Important Definitions section of this Benefit Booklet.
Unless a claim is successfully negotiated through the Price Protection Program, an Out-of-Network Hospital-Based Provider can bill the Member directly for their services, for either the Provider’s charges or amounts in excess of the Claims Administrator’s payment to the Out-of-Network Hospital-Based Providers. (That is, balance billing). In such situations, claims eligible for the balance bill advocacy services of the Price Protection Program may be initiated by the Member contacting the Claims Administrator. The Member will need to contact the Claims Administrator at the Customer Service telephone number listed on the Member’s I.D. card. For claims that are ineligible for balance bill advocacy services of the Price Protection Program, the Member should still contact the Claims Administrator. Upon such notification, the Claims Administrator will resolve the balance-billing for claims ineligible for the balance bill advocacy services of the Price Protection Program.

Note that when the Member elects to see an Out-of-Network Hospital-Based Provider for follow-up care or any other service where the Member has the ability to select an In-Network Provider, the Covered Services will be covered at an Out-of-Network benefit level. Except for Emergency Care, if an Out-of-Network Provider admits the Member to a Hospital or other Facility Provider, Covered Services provided by an Out-of-Network Hospital-Based Provider will be reimbursed at the Out-of-Network benefit level. For such Covered Services, not successfully negotiated through the Price Protection Program, payment will be made to the Member and the Member will be responsible for reimbursing the Out-of-Network Hospital-Based Provider. For payment of Covered Services provided by an Out-of-Network Professional Provider, please refer to the definition of “Covered Expense” in the Important Definitions section of this Benefit Booklet.

For payment of Covered Services provided by an Out-of-Network Professional Provider, please refer to the definition of “Covered Expense” in the Important Definitions section of this Benefit Booklet. When a Member seeks care and receives Covered Services, not successfully negotiated through the Price Protection Program, from an Out-of-Network Professional Provider, the Member will be responsible to reimburse the Out-of-Network Professional Provider for the difference between the Claims Administrator’s payment and the Out-of-Network Professional Provider’s charge. In such situations, claims eligible for the balance bill advocacy services of the Price Protection Program may be initiated by the Member contacting the Claims Administrator. The Member will need to contact the Claims Administrator at the Customer Service telephone number listed on the Member’s I.D. card.

The Member will need to contact the Claims Administrator at the Customer Service telephone number listed on the Member’s I.D. card.

Assignment of Benefits to Providers

The right of a Member to receive benefit payments under this Program is personal to the Member and is not assignable in whole or in part to any person, Hospital, or other entity nor may benefits of this Program be transferred, either before or after Covered Services are rendered. However, a Member can assign benefit payments to the custodial parent of a Dependent covered under this Program, as required by law.

BlueCard Program

• Out-of-Area Services

Overview

The Claims Administrator has a variety of relationships with other Blue Cross and/or Blue Shield Licensees. Generally, these relationships are called "Inter-Plan Arrangements." These Inter-Plan Arrangements work based on rules and procedures issued by the Blue Cross Blue Shield Association ("Association"). Whenever the Member accesses healthcare services outside of the geographic area the Claims Administrator serves, the claims for these services may be processed through one of these Inter-Plan Arrangements. The Inter-Plan Arrangements are described below.

When the Member receives care outside of the Claims Administrator's service area, the Member will receive it from one of two kinds or providers. Most providers ("participating providers") contract with the local Blue Cross and/or Blue Shield Licensee in that other geographic area ("Host Blue"). Some providers ("nonparticipating providers") don't contract with the Host Blue. the Claims Administrator explains below how the Claims Administrator pays both kinds of providers.

Inter-Plan Arrangements Eligibility - Claim Types

All claim types are eligible to be processed through Inter-Plan Arrangements, as described above, except for all Dental Care Benefits except when paid as medical claims/benefits, and those Prescription Drug Benefits or Vision Care Benefits that may be administered by a third party contracted by the Claims Administrator to provide the specific service or services.

– BlueCard® Program
Under the BlueCard® Program, when the Member receives Covered Services within the geographic area served by a Host Blue, the Claims Administrator will remain responsible
for doing what we agreed to in the contract. However, the Host Blue is responsible for contracting with and generally handling all interactions with its participating providers.

When the Member receives Covered Services outside the Claims Administrator's service area and the claim is processed through the BlueCard Program, the amount the Member pays for Covered Services is calculated based on the lower of:
- The billed charges for Covered Services; or
- The negotiated price that the Host Blue makes available to the Claims Administrator.

Often this "negotiated price" will be a simple discount that reflects an actual price that the Host Blue pays to the Member's healthcare provider. Sometimes, it is an estimated price that takes into account special arrangements with the Member's healthcare provider or provider group that may include types of settlements, incentive payments and/or other credits or charges. Occasionally, it may be an average price, based on a discount that results in expected average savings for similar types of healthcare providers after taking into account the same types of transactions as with an estimated price.

Estimated pricing and average pricing also take into account adjustments to correct for over- or underestimation of past pricing of claims, as noted above. However, such adjustments will not affect the price the Claims Administrator has used for the Member's claim because they will not be applied after a claim has already been paid.

– Special Cases: Value-Based Programs

BlueCard® Program

If the Member receives Covered Services under a Value-Based Program inside a Host Blue's service area, the Member will not be responsible for paying any of the Provider Incentives, risk-sharing, and/or Care Coordinator Fees that are a part of such an arrangement, except when a Host Blue passes these fees to the Claims Administrator through average pricing or fee schedule adjustments.

Value-Based Programs: Negotiated (non-BlueCard Program) Arrangements

If the Claims Administrator has entered into a Negotiated Arrangement with a Host Blue to provide Value-Based Programs to the Group on the Member's behalf, the Claims Administrator will follow the same procedures for Value-Based Programs administration and Care Coordinator Fees as noted above for the BlueCard Program.

– Nonparticipating Providers Outside the Claims Administrator's Service Area

  – Member Liability Calculation
  When Covered Services are provided outside of the Claims Administrator's service area by nonparticipating providers, the amount the Member pays for such services will normally be based on either the Host Blue’s nonparticipating provider local payment or the pricing arrangements required by applicable state law. In these situations, the Member may be responsible for the difference between the amount that the nonparticipating provider bills and the payment the Claims Administrator will make for the Covered Services as set forth in this paragraph. Federal or state law, as applicable, will govern payments for out-of-network emergency services.
Exceptions

In certain situations, the Claims Administrator may use other payment methods, such as billed charges for Covered Services, the payment we would make if the healthcare services had been obtained within our service area, or a special negotiated payment to determine the amount the Claims Administrator will pay for services provided by nonparticipating providers. In these situations, the Member may be liable for the difference between the amount that the nonparticipating provider bills and the payment the Claims Administrator will make for the Covered Services as set forth in this paragraph.

Blue Cross Blue Shield Global Core

If the Member is outside the United States, the Commonwealth of Puerto Rico, and the U.S. Virgin Islands (hereinafter “BlueCard service area”), the Member may be able to take advantage of the Blue Cross Blue Shield Global Core when accessing Covered Services. The Blue Cross Blue Shield Global Core is unlike the BlueCard Program available in the BlueCard service area in certain ways. For instance, although the Blue Cross Blue Shield Global Core assists the Member with accessing a network of inpatient, outpatient and professional providers, the network is not served by a Host Blue. As such, when the Member receives care from providers outside the BlueCard service area, the Member will typically have to pay the providers and submit the claims themselves to obtain reimbursement for these services.

If the Member needs medical assistance services (including locating a doctor or hospital) outside the BlueCard service area, the Member should call the Blue Cross Blue Shield Global Core Service Center at 1.800.810.BLUE (TTY: 711) or call collect at 1.804.673.1177 (TTY: 711), 24 hours a day, seven days a week. An assistance coordinator, working with a medical professional, can arrange a physician appointment or hospitalization, if necessary.

Inpatient Services

In most cases, if the Member contacts the service center for assistance, hospitals will not require the Member to pay for covered inpatient services, except for the Member’s deductibles, coinsurance, etc. In such cases, the hospital will submit the Member’s claims to the service center to begin claims processing. However, if the Member paid in full at the time of service, the Member must submit a claim to receive reimbursement for Covered Services. **The Member must contact the Claims Administrator to obtain precertification for non-emergency inpatient services.**

Outpatient Services

Physicians, urgent care centers and other outpatient providers located outside the BlueCard service area will typically require the Member to pay in full at the time of service. The Member must submit a claim to obtain reimbursement for Covered Services.
SERVICES AND SUPPLIES REQUIRING PRECERTIFICATION

Precertification Review

When required, Precertification review evaluates the Medical Necessity, including the appropriateness of the setting, of proposed services for coverage under the Member’s benefit plan. Examples of these services include planned or elective Inpatient Admissions and selected Outpatient procedures. For groups located in the PHO or Personal Choice Network service area, Precertification review may be initiated by the Provider or the Member depending on whether the Provider is a PHO or Personal Choice Network Provider. For Member’s located outside the Claims Administrator’s PHO or Personal Choice Network who are accessing BlueCard Providers, the Member is responsible for initiating or requesting the Provider to initiate the Precertification review excluding Inpatient Admissions. Where Precertification review is required, the Claims Administrator’s coverage of the proposed procedure is contingent upon the review being completed and receipt of the approval certification. Coverage penalties may be applied where Precertification review is required for a procedure but is not obtained.

While the majority of services requiring Precertification review are reviewed for Medical Necessity of the requested procedure setting (For example, Inpatient, Short Procedure Unit, or Outpatient setting), other elements of the Medical Necessity of the procedure may not always be evaluated and may be automatically approved based on the procedure or diagnosis for which the procedure is requested or an agreement with the performing provider. Precertification review is not required for Emergency services and is not performed where an agreement with the Claims Administrator’s local In-Network Provider does not require such review.

The following information provides more specific information of this Program’s Precertification requirements.

- **Inpatient Pre-Admission Review**
  - **In-Network Inpatient Admissions**
    In accordance with the criteria and procedures described above, Inpatient Admissions, other than an Emergency or maternity admission, must be Precertified in accordance with the standards of the Claims Administrator as to the Medical Necessity of the admission. The Precertification requirements for Emergency admissions are set forth in the "Emergency Admission Review" subsection of this General Information section. An In-Network Hospital, Skilled Nursing Facility, or other Facility Provider in the PHO or Personal Choice Network will verify the Precertification at or before the time of admission. The Hospital, Skilled Nursing Facility or other Facility Provider, is responsible to Precertify an Inpatient Admission under the BlueCard Program. The Claims Administrator will not authorize the Hospital, Skilled Nursing Facility or other Facility Provider admission if Precertification is required and is not obtained in advance. For Member’s who reside in the Claims Administrator’s local PHO or Personal Choice Network service area, the Claims Administrator will hold the Member harmless and the Member will not be financially responsible for admissions to Hospitals, Skilled Nursing Facilities or other Facility Providers in the PHO or Personal Choice Network which fail to conform to the pre-admission certification requirements unless:
    ➢ The Provider provides prior written notice that the admission will not be paid by the Claims Administrator; and
    ➢ The Member acknowledges this fact in writing together with a request to be admitted which states that the Member will assume financial liability for such Facility Provider admission.
- Out-of-Network Inpatient Admissions
  For an Out-of-Network Inpatient Admission, the Member is responsible to have the admission (other than for an Emergency or maternity admission) certified in advance as an approved admission.
    - To obtain Precertification, the Member is responsible to contact or have the admitting Physician or other Facility Provider contact the Claims Administrator prior to admission to the Hospital, Skilled Nursing Facility, or other Facility Provider. The Claims Administrator will notify the Member, admitting Physician and the Facility Provider of the determination. The Member is eligible for Inpatient benefits at the Out-of-Network level shown in the Schedule of Covered Services if, and only if, prior approval of such benefits has been certified in accordance with the provisions of this Benefit Booklet.
    - If prior approval for a Medically Necessary Inpatient Admission has not been certified as required, there will be a Penalty for non-compliance and the amount, as shown below, will be deemed not to be Covered Services under this Program. Such Penalty, and any difference in what is covered by the Claims Administrator and the Member’s obligation to the Provider, will be the sole responsibility of, and payable by, the Member.

If a Member elects to be admitted to the Facility Provider after review and notification that the reason for admission is not approved for an Inpatient level of care, Inpatient benefits will not be provided and the Member will be financially liable for non-covered Inpatient charges.
    - If Precertification is denied, the Member, the Physician or the Facility Provider may Appeal the determination and submit information in support of the claim for Inpatient benefits. A final determination concerning eligibility for Inpatient benefits will be made and the Member, Physician, or Facility Provider will be so notified.

- Emergency Admission Review
  - In-Network Admissions
    It is the responsibility of the In-Network Provider to notify the Claims Administrator of the In-Network Emergency admission.

  - Out-of-Network Provider Admissions
    - Members are responsible for notifying the Claims Administrator of an Out-of-Network Provider Emergency admission within two business days of the admission, or as soon as reasonably possible, as determined by the Claims Administrator.
    - Failure to initiate Emergency admission review will result in a reduction in Covered Expense for Out-of-Network services. Such Penalty, as shown below, will be the sole responsibility of, and payable by, the Member.
    - If the Member elects to remain hospitalized after the Claims Administrator and the attending Physician have determined that an Inpatient level of care is not Medically Necessary, the Member will be financially liable for non-covered Inpatient charges from the date of notification.
- **Concurrent and Retrospective Review**

Concurrent review may be performed while services are being performed. This may occur during an Inpatient stay and typically evaluates the expected and current length of stay to determine if continued hospitalization is Medically Necessary. When performed, the review assesses the level of care provided to the Member and coordinates discharge planning. Concurrent review continues until the patient is discharged. Not all Inpatient stays are reviewed concurrently. Concurrent Review is generally not performed where an Inpatient Facility is paid based on a per case or diagnosis-related basis, or where an agreement with the Facility does not require such review.

Retrospective/Post Service review:
Retrospective review occurs after services have been provided. This may be for a variety of reasons, including the Claims Administrator not being notified of a Member’s admission until after discharge or where medical charts are unavailable at the time of concurrent review. Certain services are only reviewed on a retrospective/post-service basis.

In addition to these standard utilization reviews, the Claims Administrator also may determine coverage of certain procedures and other benefits available to Members through Prenotification as required by the Member’s benefit plan, and discharge planning.

Pre-notification. Pre-notification is advance notification to the Claims Administrator of an Inpatient Admission or Outpatient service where no Medical Necessity review is required, such as maternity admissions/deliveries. Pre-notification is primarily used to identify Members for Concurrent review needs, to ascertain discharge planning needs proactively, and to identify Members who may benefit from Case Management programs.

Discharge Planning. Discharge Planning is performed during an Inpatient Admission and is used to identify and coordinate a Member’s needs and benefits coverage following the Inpatient stay, such as covered home care, ambulance transport, acute rehabilitation, or Skilled Nursing Facility placement. Discharge Planning involves the Claims Administrator’s authorization of covered post-Hospital services and identifying and referring Members to Disease Management or Case Management benefits.

Selective Medical Review. In addition to the foregoing requirements, the Claims Administrator reserves the right, under its utilization and quality management programs, to perform a medical review prior to, during or following the performance of certain Covered Services (“Selective Medical Review”) that are otherwise not subject to review as described above. In addition, the Claims Administrator reserves the right to waive medical review for certain Covered Services for certain Providers, if the Claims Administrator determines that those Providers have an established record of meeting the utilization and/or quality management standards for these Covered Services. Coverage penalties are not applied to Members where required Selective Medical Review is not obtained by the Provider.
Other Precertification Requirements

Precertification is required by the Claims Administrator in advance for certain services. To obtain a list of services that require Precertification, please go to www.ibx.com/preapproval or call the Customer Service telephone number that is listed on the Member's Identification Card. When a Member plans to receive any of these listed procedures, the Claims Administrator will review the Medical Necessity for the procedure or treatment in accordance with the criteria and procedures described above and grant prior approval of benefits accordingly.

Surgical, diagnostic and other procedures, listed on the Precertification requirements list, that are performed during an Emergency, as determined by the Claims Administrator, do not require Precertification. However, the Claims Administrator should be notified within two business days of Emergency services for such procedures, or as soon as reasonably possible, as determined by the Claims Administrator.

- In-Network Care
  In-Network Providers in the PHO or Personal Choice Network must contact the Claims Administrator to initiate Precertification. The Claims Administrator will verify the results of the Precertification with the Member and with the In-Network Provider. If the In-Network Provider is a BlueCard Provider, however, the Member must initiate Precertification excluding Inpatient Admissions.

  If such prior approval is not obtained and the Member undergoes the surgical, diagnostic or other procedure or treatment that requires Precertification, then benefits will be provided for Medically Necessary treatment, subject to a Penalty.

  For In-Network Providers in the PHO or Personal Choice Network, the Claims Administrator will hold the Member harmless and the Member will not be financially responsible for this financial Penalty for the In-Network Provider's failure to comply with the Precertification requirements or determination, unless a Member elects to receive the treatment after review and written notification that the procedure is not covered as Medically Necessary. In which case benefits will not be provided and the Member will be financially liable for non-covered charges.

- Out-of-Network Care
  For Out-of-Network Care and care provided by BlueCard Providers (excluding Inpatient Admissions), the Member is responsible to have the Provider performing the service contact the Claims Administrator to initiate Precertification. The Claims Administrator will verify the results of the Precertification with the Member and the Provider.

  If such prior approval is not obtained and the Member undergoes the surgical, diagnostic or other procedure or treatment that requires Precertification, then benefits will be provided for Medically Necessary treatment, but the Provider's charge less any applicable Coinsurance, Copayments, Deductibles shall be subject to a Penalty, as reflected below. Such Penalty, and any difference in what is covered by the Claims Administrator and the Member's obligation to the Provider, will be the sole responsibility of, and payable by, the Member.
Precertification Penalty:
The Member may be responsible for financial penalties if the Member does not preauthorize services when the Member uses a BlueCard Provider (excluding Inpatient Admissions), or an Out-of-Network Provider. There is a $1,000 Penalty for failure to preauthorize Inpatient services or treatment, and a 20% reduction in benefits for failure to preauthorize Outpatient services or treatment.

Disease Management and Decision Support Programs
Disease Management and Decision Support programs help Members to be effective partners in their health care by providing information and support to Members with certain chronic conditions as well as those with everyday health concerns. Disease Management is a systematic, population-based approach that involves identifying Members with certain chronic diseases, intervening with specific information or support to follow Provider’s treatment plan, and measuring clinical and other outcomes. Decision Support involves identifying Members who may be facing certain treatment option decisions and offering them information to assist in informed, collaborative decisions with their Physicians. Decision Support also includes the availability of general health information, personal health coaching, Provider information, or other programs to assist in health care decisions.

Disease Management interventions are designed to help Members manage their chronic condition in partnership with their Physician(s). Disease Management programs, when successful, can help such Members avoid long term complications, as well as relapses that would otherwise result in Hospital or Emergency room care. Disease Management programs also include outreach to Members to obtain needed preventive services, or other services recommended for chronic conditions. Information and support may occur in the form of telephonic health coaching, print, audio library or videotape, or Internet formats.

The Claims Administrator will utilize medical information such as claims data to operate the Disease Management or Decision Support program, (For example, to identify Members with chronic disease, to predict which Members would most likely benefit from these services, and to communicate results to the Member’s treating Physician(s)). The Claims Administrator will decide what chronic conditions are included in the Disease Management or Decision Support program.

Participation by a Member in Disease Management or Decision Support programs is voluntary. A Member may continue in the Disease Management or Decision Support program until any of the following occurs:

- The Member notifies the Claims Administrator that they have declined participation;
- The Claims Administrator determines that the program, or aspects of the program, will not continue; or
- The Member’s Employer decides not to offer the programs.

Out-Of-Area Care for Dependent Students
If an unmarried Dependent child is a full-time student in an Accredited Educational Institution located outside the area served by the Personal Choice Network, the student may be eligible to receive Out-of-Network care at the In-Network level of benefits. Charges for treatment will be paid at the In-Network level of benefits when the Dependent student receives care from Providers as described in the "BlueCard Program" subsection of the General Information section. However, treatment provided by an educational facility's infirmary for Urgent Care, (For
example, may also be paid at the In-Network level of benefits, but the Claims Administrator should be notified within 48 hours of treatment to insure Covered Services are treated as In-Network Covered Services). Nothing in this provision will act to continue coverage of a Dependent child past the date when such child's coverage would otherwise be terminated under this Program.

**UTILIZATION REVIEW PROCESS AND CRITERIA**

**Utilization Review Process**

A basic condition of IBC’s, and its subsidiary QCC Insurance Company’s ("the Claims Administrator") benefit plan coverage is that in order for a health care service to be covered or payable, the services must be Medically Necessary. To assist the Claims Administrator in making coverage determinations for requested health care services, the Claims Administrator uses established IBC Medical Policies and medical guidelines based on clinically credible evidence to determine the Medical Necessity of the requested services. The appropriateness of the requested setting in which the services are to be performed is part of this assessment. The process of determining the Medical Necessity of requested health care services for coverage determinations based on the benefits available under a Member’s benefit plan is called utilization review.

It is not practical to verify Medical Necessity on all procedures on all occasions; therefore, certain procedures may be determined by the Claims Administrator to be Medically Necessary and automatically approved based on the accepted Medical Necessity of the procedure itself, the diagnosis reported or an agreement with the performing Provider. An example of such automatically approved services is an established list of services received in an Emergency room which has been approved by the Claims Administrator based on the procedure meeting Emergency criteria and the severity of diagnosis reported (For example, rule out myocardial infarction, or major trauma). Other requested services, such as certain elective Inpatient or Outpatient procedures may be reviewed on a procedure specific or setting basis.

Utilization review generally includes several components which are based on when the review is performed. When the review is required before a service is performed it is called a Precertification review. Reviews occurring during a hospital stay are called a concurrent review, and those reviews occurring after services have been performed are called either retrospective or post-service reviews. The Claims Administrator follows applicable state and federally required standards for the timeframes in which such reviews are to be performed.
Generally, where a requested service is not automatically approved and must undergo Medical Necessity review, nurses perform the initial case review and evaluation for coverage approval using the Claims Administrator's Medical Policies, established guidelines and evidence-based clinical criteria and protocols; however only a Medical Director employed by the Claims Administrator may deny coverage for a procedure based on Medical Necessity. The evidence-based clinical protocols evaluate the Medical Necessity of specific procedures and the majority are computer-based. Information provided in support of the request is entered into the computer-based system and evaluated against the clinical protocols. Nurses apply applicable benefit plan policies and procedures, taking into consideration the individual Member’s condition and applying sound professional judgment. When the clinical criteria are not met, the given service request is referred to a Medical Director for further review for approval or denial. Independent medical consultants may also be engaged to provide clinical review of specific cases or for specific conditions. Should a procedure be denied for coverage based on lack of Medical Necessity, a letter is sent to the requesting Provider and Member in accordance with applicable law.

The Claims Administrator’s utilization review program encourages peer dialogue regarding coverage decisions based on Medical Necessity by providing Physicians with direct access to the Claims Administrator’s Medical Directors to discuss coverage of a case. Medical Directors and nurses are salaried, and contracted external Physician and other professional consultants are compensated on a per case reviewed basis, regardless of the coverage determination. The Claims Administrator does not specifically reward or provide financial incentives to individuals performing utilization review services for issuing denials of coverage. There are no financial incentives for such individuals which would encourage utilization review decisions that result in underutilization.

Clinical Criteria, Guidelines and Resources
The following guidelines, clinical criteria and other resources are used to help make Medical Necessity coverage decisions:

Clinical Decision Support Criteria: Clinical Decision Support Criteria is an externally validated and computer-based system used to assist the Claims Administrator in determining Medical Necessity. This evidence-based, Clinical Decision Support Criteria is nationally recognized and validated. Using a model based on evaluating intensity of service and severity of illness, these criteria assist our clinical staff evaluating the Medical Necessity of coverage based on a Member’s specific clinical needs. Clinical Decision Support Criteria helps promote consistency in the Claims Administrator’s plan determinations for similar medical issues and requests, and reduces practice variation among the Claims Administrator’s clinical staff to minimize subjective decision-making.

Clinical Decision Support Criteria may be applied for Covered Services including but not limited to the following:

- Some elective surgeries-settings for Inpatient and Outpatient procedures (For example, hysterectomy and sinus Surgery);
- Inpatient hospitalizations;
- Inpatient Rehabilitation;
- Home Health;
- Durable Medical Equipment;
- Skilled Nursing Facility.

Centers for Medicare and Medicaid Services (CMS) Guidelines: A set of guidelines adopted and published by CMS for coverage of services by Medicare for Medicare Members.

PHO/PC.SF.BK.HCR Group Number:10103818, 19, 23
Rev. 1.21

79
IBC Medical Policies: IBC maintains an internally developed set of policies that document the coverage and conditions for certain medical/surgical procedures and ancillary services.

Covered Services for which IBC’s Medical Polices are applied include, but are not limited to:
- Ambulance;
- Infusion;
- Speech Therapy;
- Occupational Therapy;
- Durable Medical Equipment;
- Review of potential cosmetic procedures.

IBC (and QCC) Internally Developed Guidelines: A set of guidelines developed specifically by IBC (and QCC), as needed, with input by clinical experts based on accepted practice guidelines within the specific fields and reflecting IBC Medical Policies for coverage.

Delegation of Utilization Review Activities And Criteria
In certain instances, the Claims Administrator has delegated certain utilization review activities, including Precertification review, concurrent review, and Case Management, to integrated delivery systems and/or entities with an expertise in medical management of a certain membership population (such as, Neonates/premature infants) or type of benefit or service (such as mental health/psychiatric care and Alcohol and Drug Abuse or radiology). In such instances, a formal delegation and oversight process is established in accordance with applicable law and nationally-recognized accreditation standards. In such cases, the delegate’s utilization review criteria are generally used, with the Claims Administrator’s approval.

Utilization Review and Criteria for Mental Health/Psychiatric Care and Alcohol and Drug Abuse Services
Utilization Review activities for mental health/psychiatric care and Alcohol and Drug Abuse services have been delegated by IBC (and QCC) to a behavioral health management company, which administers the mental health/psychiatric care and Alcohol and Drug Abuse benefits for the majority of the Claims Administrator's Members.

COORDINATION OF BENEFITS

Coordination of Benefits
This Program’s Coordination of Benefits (COB) provision is designed to conserve funds associated with health care.

Definitions
In addition to the Definitions of this Program for purposes of this provision only:
- "Plan" shall mean any group arrangement providing health care benefits or Covered Services through:
  - Individual, group, (except hospital indemnity plans), blanket (except student accident) or franchise insurance coverage;
  - The Plan, health maintenance organization and other prepayment coverage;
  - Coverage under labor management trusted plans, union welfare plans, Employer organization plans, or Employee benefit organization plans; and
  - Coverage under any tax supported or government program to the extent permitted by law.
- **Determination of Benefits**

COB applies when an Employee has health care coverage under any other group health care plan (Plan) for services covered under this Program, or when the Employee has coverage under any tax-supported or governmental program unless such program's benefits are, to the extent permitted by law, excess to those of any private insurance coverage. When COB applies, payments may be coordinated between the Claims Administrator and the other Plan in order to avoid duplication of benefits.

Benefits under this Program will be provided in full when the Claims Administrator is primary, that is, when the Claims Administrator determines benefits first. If another Plan is primary, the Claims Administrator will provide benefits as described below.

When an Employee has group health care coverage under this Program and another Plan, the following will apply to determine which coverage is primary:
- If the other Plan does not include rules for coordinating benefits, such other Plan will be primary.
- If the other Plan includes rules for coordinating benefits:
  - The Plan covering the patient other than as a Dependent shall be primary.
  - The Plan covering the patient as a Dependent of the parent whose date of birth, excluding year of birth, occurs earlier in the calendar year shall be primary, unless the child’s parents are separated or divorced and there is no joint custody agreement. If both parents have the same birthday, the Plan which covered the parent longer shall be primary.
  - Except as provided in the following paragraph, if the child’s parents are separated or divorced and there is no joint custody agreement, benefits for the child are determined as follows.
    - First, the Plan covering the child as a Dependent of the parent with custody;
    - Then, the Plan of the spouse of the parent with custody of the child;
    - Finally, the Plan of the parent not having custody of the child.
  - When there is a court decree which establishes financial responsibility for the health care expenses of the Dependent child and the Plan covering the parent with such financial responsibility has actual knowledge of the court decree, benefits of that Plan are determined first.
  - If the specific terms of the court decree state that the parents shall share joint custody, without stating that one of the parents is responsible for the health care expenses of the child, the Plans covering the child shall follow the order of benefit determination rules outlined above in the paragraph that begins "The Plan covering the patient as a Dependent…".
  - The Plan covering the patient as an Employee who is neither laid off nor retired (or as that Employee's Dependent) is primary to a Plan which covers that patient as a laid off or retired Employee (or as that Employee's Dependent). However, if the other Plan does not have the rule described immediately above and if, as a result, the Plans do not agree on the order of benefits, this rule does not apply.
  - If none of the above rules apply, the Plan which covered the Employee longer shall be primary.
- **Effect on Benefits**
  When the Claims Administrator's Plan is secondary, the benefits under this Program will be reduced so that the Claims Administrator will pay no more than the difference, if any, between the benefits provided under the other Plan for services covered under this Program and the total Covered Services provided to the Employee. Benefits payable under another Plan include benefits that would have been payable had the claim been duly made therefore. In no event will the Claims Administrator payment exceed the amount that would have been payable under this Program if the Claims Administrator were primary.

When the benefits are reduced under the primary Plan because an Employee does not comply with the Plan provision, or does not maximize benefits available under the primary Plan, the amount of such reduction will not be considered an allowable benefit. Examples of such provisions are Penalties and increased Coinsurance related to Precertification of admissions and services, In-Network Provider arrangements and other cost-sharing features.

Certain facts are needed to apply COB. The Claims Administrator has the right to decide which facts are needed. The Claims Administrator may, without consent of or notice to any person, release to or obtain from any other organization or person any information, with respect to any person, which the Claims Administrator deems necessary for such purposes. Any person claiming benefits under this Program shall furnish to the Claims Administrator such information as may be necessary to implement this provision. The Claims Administrator, however, shall not be required to determine the existence of any other Plan or the amount of benefits payable under any such Plan, and the payment of benefits under this Program shall be affected by the benefits that would be payable under any and all other Plans only to the extent that the Claims Administrator is furnished with information relative to such other Plans.

- **Right of Recovery**
  Whenever payments which should have been made under this Program in accordance with this provision have been made under any other Plan, the Claims Administrator shall have the right, exercisable alone and in its sole discretion, to pay over to any organization making such other payments any amounts it shall determine to be warranted in order to satisfy the intent of this provision. Amounts so paid shall be deemed to be benefits provided under this Program and, to the extent of such payments, the Claims Administrator shall be fully discharged from liability under this Program.

Whenever payments have been made by the Claims Administrator in a total amount, at any time, in excess of the maximum amount of payment necessary at that time to satisfy the intent of this provision, irrespective of to whom paid, the Claims Administrator shall have the right to recover such payments to the extent of such excess from among one or more of the following, as the Claims Administrator shall determine:
- The person the Claims Administrator has paid or for whom they have paid;
- Insurance companies; or
- Any other organizations.

The Member, on the Member’s own behalf and on behalf of the Member’s Dependents, shall, upon request, execute and deliver such instruments and papers as may be required and do whatever else is reasonably necessary to secure such rights to the Claims Administrator.
SUBROGATION AND REIMBURSEMENT RIGHTS

By accepting benefits for Covered Services, the Member agrees that the Claims Administrator has the right to enforce subrogation and reimbursement rights. This section explains these rights and the responsibilities of each Member pertaining to subrogation and reimbursement. The term Member includes Eligible Dependents. The term Responsible Third Party refers to any person or entity, including any insurance company, health benefits plan or other third party, that has an obligation (whether by contract, common law or otherwise) to pay damages, pay compensation, provide benefits or make any type of payment to the Member for an injury or illness.

The Claims Administrator or the Plan Administrator, as applicable, retains full discretionary authority to interpret and apply these subrogation and reimbursement rights based on the facts presented.

Subrogation Rights
Subrogation rights arise when the Claims Administrator pays benefits on behalf of a Member and the Member has a right to receive damages, compensation, benefits or payments of any kind (whether by a court judgment, settlement or otherwise) from a Responsible Third Party. The Claims Administrator is subrogated to the Member's right to recover from the Responsible Third Party. This means that the Claims Administrator "stands in your shoes" - and assumes the Member's right to pursue and receive the damages, compensation, benefits or payments from the Responsible Third Party to the full extent that the Claims Administrator has reimbursed the Member for medical expenses or paid medical expenses on the Member's behalf, plus the costs and fees that are incurred by the Claims Administrator to enforce these rights. The right to pursue a subrogation claim is not contingent upon whether or not the Member pursues the Responsible Third Party for any recovery.

Reimbursement Rights
If a Member obtains any recovery - regardless of how it's described or structured - from a Responsible Third Party, the Member must fully reimburse the Claims Administrator for all medical expenses that were paid to the Member or on the Member's behalf, plus the costs and fees that are incurred by the Claims Administrator to enforce these rights. The Claims Administrator has a right to full reimbursement.

Lien
By accepting benefits for Covered Services from the Claims Administrator, the Member agrees to a first priority equitable lien by agreement on any payment, reimbursement, settlement or judgment received by the Member, or anyone acting on the Member's behalf, from any Responsible Third Party. As a result, the Member must repay to the Claims Administrator the full amount of the medical expenses that were paid to the Member or on the Member's behalf out of the amounts recovered from the Responsible Third Party (plus the costs and fees that are incurred by the Claims Administrator to enforce these rights) first, before funds are allotted toward any other form of damages, whether or not there is an admission of fault or liability by the Responsible Third Party. The Claims Administrator has a lien on any amounts recovered by the Member from a Responsible Third Party, regardless of whether or not the amount is designated as payment for medical expenses. This lien will remain in effect until the Claims Administrator is reimbursed in full.
**Constructive Trust**

If the Member (or anyone acting on the Member’s behalf) receive damages, compensation, benefits or payments of any type from a Responsible Third Party (whether by a court judgment, settlement or otherwise), the Member agrees to maintain the funds in a separate, identifiable account and that the Claims Administrator has a lien on the monies. In addition the Member agrees to serve as the trustee over the monies for the benefit of Claims Administrator to the full extent that the Claims Administrator has reimbursed the Member for medical expenses or paid medical expenses on the member’s behalf, plus the attorney’s fees and the costs of collection incurred by the Claims Administrator.

- These subrogation and reimbursement rights apply regardless of whether money is received through a court decision, settlement, or any other type of resolution.
- These subrogation and reimbursement rights apply even if the recovery is designated or described as covering damages other than medical expenses (such as property damage or pain and suffering).
- These subrogation and reimbursement rights apply with respect to any recoveries made by the Member, including amounts recovered under an uninsured or underinsured motorist policy.
- The Claims Administrator is entitled to recover the full amount of the benefits paid to the Member or on the Member’s behalf plus the costs and fees that are incurred by the Claims Administrator to enforce these rights without regard to whether the Member has been made whole or received full compensation for other damages (including property damage or pain and suffering). The recovery rights of the Claims Administrator will not be reduced by the “made whole” doctrine or “double recovery” doctrine.
- The Claims Administrator will not pay, offset any recovery, or in any way be responsible for attorneys’ fees or costs associated with pursuing a claim against a Responsible Third Party unless the Claims Administrator agrees to do so in writing. The recovery rights of the Claims Administrator will not be reduced by the “common fund” doctrine.
- In addition to any Coordination of Benefits rules described in this Benefit Booklet, the benefits paid by the Claims Administrator will be secondary to any no-fault auto insurance benefits and to any worker’s compensation benefits (no matter how any settlement or award is characterized) to the fullest extent permitted by law.
- These subrogation and reimbursement rights apply and will not be decreased, restricted, or eliminated in any way if the Member receives or has the right to recover no-fault insurance benefits. All rights under this section are enforceable against the heirs, estate, legal guardians or legal representatives of the Member.
- The Claims Administrator is entitled to recover the full amount of the medical benefits paid without regard to any claim of fault on the Member’s part.

**Obligations of Member**

- Immediately notify the Claims Administrator or its designee in writing if the Member asserts a claim against a Responsible Third Party, whether informally or through judicial or administrative proceedings.
- Immediately notify the Claims Administrator or its designee in writing whenever a Responsible Third Party contacts the Member or the Member’s representative – or the Member or the Member’s representative contact a Responsible Third Party - to discuss a potential settlement or resolution.
- Refuse any offer to settle, adjust or resolve a claim for damages, benefits or compensation that involves an injury, illness or medical expenses in any way, unless and until the Member receives written authorization from the Claims Administrator or its delegated representative.
- Fully cooperate with the Claims Administrator and its designated representative, as needed, to allow for the enforcement of these subrogation and reimbursement rights and promptly
supply information/documentation when requested and promptly execute any and all forms/documents that may be needed.

- Avoid taking any action that may prejudice or harm the Claims Administrator ability to enforce these subrogation and reimbursement rights to the fullest extent possible.
- Fully reimburse the Claims Administrator or its designated representative immediately upon receiving compensation of any kind (whether by court judgment, settlement or otherwise) from a Responsible Third Party.
- Serve as trustee for any and all monies paid to (or payable to) the Member or for the Member’s benefit by any Responsible Third Party to the full extent the Claims Administrator paid benefits for an injury or illness.
- All of these Obligations apply to the heirs, estate, legal guardians or legal representatives of the Member.

**CLAIM PROCEDURES**

**How To File A Claim**

The Member is never required to file a claim when Covered Services are provided by In-Network Providers. When the Member receives care from an Out-of-Network Provider, the Member will need to file a claim to receive benefits. If the Member does not have a claim form, the Member should call the Claims Administrator’s Member Services Department at the number listed on the Member's Identification Card, and a claim form will be sent to the Member. The Member should fill out the claim form and return it with their itemized bills to the Claims Administrator at the address listed on the claim form no later than 20 days after completion of the Covered Services. The claim should include the date and information required by the Claims Administrator to determine benefits. An expense will be considered Incurred on the date the service or supply was rendered.

If it was not possible to file the claim within the 20-day period, the Member’s benefits will not be reduced, but in no event will the Claims Administrator be required to accept the claim more than 12 months after the end of the Benefit Period in which the Covered Services are rendered.

**Release Of Information**

Each Member agrees that any person or entity having information relating to an illness or injury for which benefits are claimed under this Program may furnish to the Claims Administrator, upon its request, any information (including copies of records relating to the illness or injury). In addition, the Claims Administrator may furnish similar information to other entities providing similar benefits at their request.

The Claims Administrator may furnish other plans or plan sponsored entities with membership and/or coverage information for the purpose of claims processing or facilitating patient care.
When the Claims Administrator needs to obtain consent for the release of personal health information, authorization of care and treatment, or to have access to information from a Member who is unable to provide it, the Claims Administrator will obtain consent from the parent, legal guardian, next of kin, or other individual with appropriate legal authority to make decisions on behalf of the Member.

**Limitation Of Actions**
No legal action may be taken to recover benefits prior to 60 days after notice of claim has been given as specified above, and no such action may be taken later than two years after the date Covered Services are rendered.

**Claim Forms**
The Claims Administrator will furnish to the Member or to the Group, for delivery to the Member, such claim forms as are required for filing proof of loss for Covered Services provided by Out-of-Network Providers.

**Timely Filing**
The Claims Administrator will not be liable under this Program unless proper notice is furnished to the Claims Administrator that Covered Services have been rendered to a Member. Written notice must be given within 90 days after completion of the Covered Services. The notice must include the date and information required by the Claims Administrator to determine benefits. An expense will be considered Incurred on the date the service or supply was rendered.

Failure to give notice to the Claims Administrator within the time specified will not reduce any benefit if it is shown that the notice was given as soon as reasonably possible, but in no event will the Claims Administrator be required to accept notice more than 12 months after the end of the Benefit Period in which the Covered Services are rendered.

The above is not applicable to claims administered by In-Network Providers.

Any payment made by the Claims Administrator in good faith pursuant to this provision shall fully discharge the Claims Administrator to the extent of such payment.
**Physical Examinations and Autopsy**
The Claims Administrator at its own expense shall have the right and opportunity to examine the Member when and so often as it may reasonably require during the pendency of claim under this Program; and the Claims Administrator shall also have the right and opportunity to make an autopsy in case of death, where it is not prohibited by law.

In the event that Special Circumstances result in a severe impact to the availability of providers and services, to the procedures required for obtaining benefits for Covered Services under this Program (For example, obtaining Precertification, use of In-Network Providers), or to the administration of this Program by the Claims Administrator, the Claims Administrator may on a selective basis, waive certain procedural requirements of this Program. Such waiver shall be specific as to the requirements that are waived and shall last for such period as required by the Special Circumstances as defined below.

The Claims Administrator shall make a good faith effort to provide access to Covered Services in so far as practical and according to its best judgment. Neither the Claims Administrator nor the Providers in the Claims Administrator's PPO network shall incur liability or obligation for delay or failure to provide or arrange for Covered Services if such failure or delay is caused by Special Circumstances.

IMPORTANT NOTICES

Regarding Experimental/Investigative Treatment:
The Claims Administrator does not cover treatment it determines to be Experimental/Investigative in nature because that treatment is not accepted by the general medical community for the condition being treated or not approved as required by federal or governmental agencies. However, the Claims Administrator acknowledges that situations exist when a Member and their Physician agree to utilize Experimental/Investigative treatment. If a Member receives Experimental/Investigative treatment, the Member shall be responsible for the cost of the treatment. A Member or their Physician should contact the Claims Administrator to determine whether a treatment is considered Experimental/Investigative. The term "Experimental/Investigative" is defined in the Important Definitions section.

Regarding Treatment Which Is Not Medically Necessary:
The Claims Administrator only covers treatment which it determines Medically Necessary. An In-Network Provider accepts the Claims Administrator's decision and contractually is not permitted to bill the Member for treatment which the Claims Administrator determines is not Medically Necessary unless the In-Network Provider specifically advises the Member in writing, and the Member agrees in writing that such services are not covered by the Claims Administrator, and that the Member will be financially responsible for such services. An Out-of-Network Provider, however, is not obligated to accept the Claims Administrator's determination and the Member may not be reimbursed for treatment which the Claims Administrator determines is not Medically Necessary. The Member is responsible for these charges when treatment is received by an Out-of-Network Provider. The Member can avoid these charges simply by choosing an In-Network Provider for the Members care. The term "Medically Necessary" is defined in the Important Definitions section.

Regarding Treatment for Cosmetic Purposes:
The Claims Administrator does not cover treatment which it determines is for cosmetic purposes because it is not necessitated as part of the Medically Necessary treatment of an illness, injury or congenital birth defect. However, the Claims Administrator acknowledges that situations exist when a Member and their Physician decide to pursue a course of treatment for cosmetic purposes. In such cases, the Member is responsible for the cost of the treatment. A Member or their Physician should contact the Claims Administrator to determine whether treatment is for cosmetic purposes. The exclusion for services and operations for cosmetic purposes is detailed in the Exclusions - What Is Not Covered section.
Regarding Coverage for Emerging Technology:

While the Claims Administrator does not cover treatment it determines to be Experimental/Investigative, it routinely performs technology assessments in order to determine when new treatment modalities are safe and effective. A technology assessment is the review and evaluation of available clinical and scientific information from expert sources. These sources include but are not limited to articles published by governmental agencies, national peer review journals, national experts, clinical trials, and manufacturer's literature. The Claims Administrator uses the technology assessment process to assure that new drugs, procedures or devices ("emerging technology") are safe and effective before approving them as Covered Services. When new technology becomes available or at the request of a practitioner or Member, the Claims Administrator researches all scientific information available from these expert sources. Following this analysis, the Claims Administrator makes a decision about when a new drug, procedure or device has been proven to be safe and effective and uses this information to determine when an item becomes a Covered Service for the condition being treated or not approved as required by federal or governmental agencies. A Member or their Provider should contact the Claims Administrator to determine whether a proposed treatment is considered "emerging technology" and whether the Provider is considered an eligible Provider to perform the "emerging technology" Covered Service. The Claims Administrator maintains the discretion to limit eligible Providers for certain "emerging technology" Covered Services.

Regarding Use of Out-of-Network Providers

While Personal Choice has an extensive network, it may not contain every provider that the Member elects to see. To receive the Maximum benefits available under this Program, the Member must obtain Covered Services from In-Network Providers that participate in the Personal Choice Network or is a BlueCard Provider.

In addition, the Members Personal Choice program allows the Member to obtain Covered Services from Out-of-Network Providers. If the Member uses an Out-of-Network Provider the Member will be reimbursed for Covered Services but will incur significantly higher out-of-pocket expenses including Deductibles, Coinsurance. In certain instances, the Out-of-Network Provider also may charge the Member for the balance of the Provider’s bill. This is true regardless of the reason the Member uses an Out-of-Network Provider including, but not limited to, by choice, for level of expertise, for convenience, for location, because of the nature of the services, based on the recommendation of a Provider or network sufficiency. However, if Emergency Care is provided by certain Out-of-Network Providers (For example, ambulance services), in accordance with applicable law, the Claims Administrator will reimburse the Out-of-Network Provider at an In-Network rate directly. In this instance the specified Out-of-Network Provider will not bill the Member for amounts in excess of the Claims Administrator’s payment for the Emergency Care. For payment of Covered Services provided by an Out-of-Network Provider, please refer to the definition of "Covered Expense".

For Covered Services not successfully negotiated through the Price Protection Program, received from an Out-of-Network Provider, payment will be made directly to the Member and the Member will be responsible for reimbursing the Out-of-Network Provider. However, the Claims Administrator reserves the right, in its sole discretion, to make payments directly to the Out-of-Network Provider.

For specific terms regarding Out-of-Network Providers, please refer to the following sections: Important Definitions; including but not limited to the definition of "Covered Expense" and "Out-of-Network Provider", Payment of Providers and Payment Methods.
Regarding Non-Discrimination Rights
The Member has the right to receive health care services without discrimination:
- Based on race, ethnicity, age, mental or physical disability, genetic information, color, religion, gender, national origin, source of payment, sexual orientation, or sex, including stereotypes and gender identity;
- For Medically Necessary health services made available on the same terms for all individuals, regardless of sex assigned at birth, gender identity, or recorded gender;
- Based on an individual's sex assigned at birth, gender identity, or recorded gender, if it is different from the one to which such health service is ordinarily available;
- Related to gender transition if such denial or limitation results in discriminating against a transgender individual.

Discretionary Authority
The Claims Administrator or Plan Administrator, as applicable, retains discretionary authority to interpret the benefit plan and the facts presented to make benefit determinations. Benefits under this Program will be provided only if the Claims Administrator or Plan Administrator, as applicable, determines in its discretion that the Member is entitled to them.

REMEMBER: Whenever a Provider suggests a new treatment option that may fall under the category of "Experimental/Investigative", "cosmetic", or "emerging technology", the Member, or their Provider, should contact the Claims Administrator for a coverage determination. That way the Member and the Provider will know in advance if the treatment will be covered by the Claims Administrator.

In the event the treatment is not covered by the Claims Administrator, the Member can make an informed decision about whether to pursue alternative treatment options or be financially responsible for the non-covered service.

For more information on when to contact the Claims Administrator for coverage determinations, please see the Precertification and Prenotification requirements in the General Information section.

RIGHTS AND RESPONSIBILITIES
To obtain a list of "Rights and Responsibilities", please log on to http://www.ibx.com/members/quality_management/member_rights.html or the Member should call the Customer Service telephone number that is listed on their Identification Card to receive a printed copy.
