

Accessing Blackboard

Go to <https://learn.dcollege.net> to access Drexel's Blackboard Learn site. This is where your class materials, links to online class sessions, and other law school programming will be located.

Click "Sign in with Drexel Connect," then enter your DrexelOne credentials – the same username and password as your Zoom, email, and other accounts. Click Connect, then approve with Multifactor Authentication if you are logging in for the first time.

To set up Multifactor Authentication or to troubleshoot it, [please visit this page](#).

On the main Learn page, you will see several options on the left side menu. Click on Courses to access your various classes. Underneath Courses is Organizations, where orientation materials and meetings will be held.

After selecting Courses or Organizations, click the name of the one to open it. Orientation is in an organization called “Law School Programming.” At orientation we will cover more on navigating Blackboard, using Zoom, and more.

Summer Student Orientation

Orientation Zoom Link

Use the link above to practice joining a Zoom room, as well as for orientation the week of May 11. You should be joining the meeting with your Drexel Zoom account. If you have not yet done so, please activate that account at <https://drexel.zoom.us> using your Drexel username and password, and ensure you have signed out of your personal Zoom account if you have one.

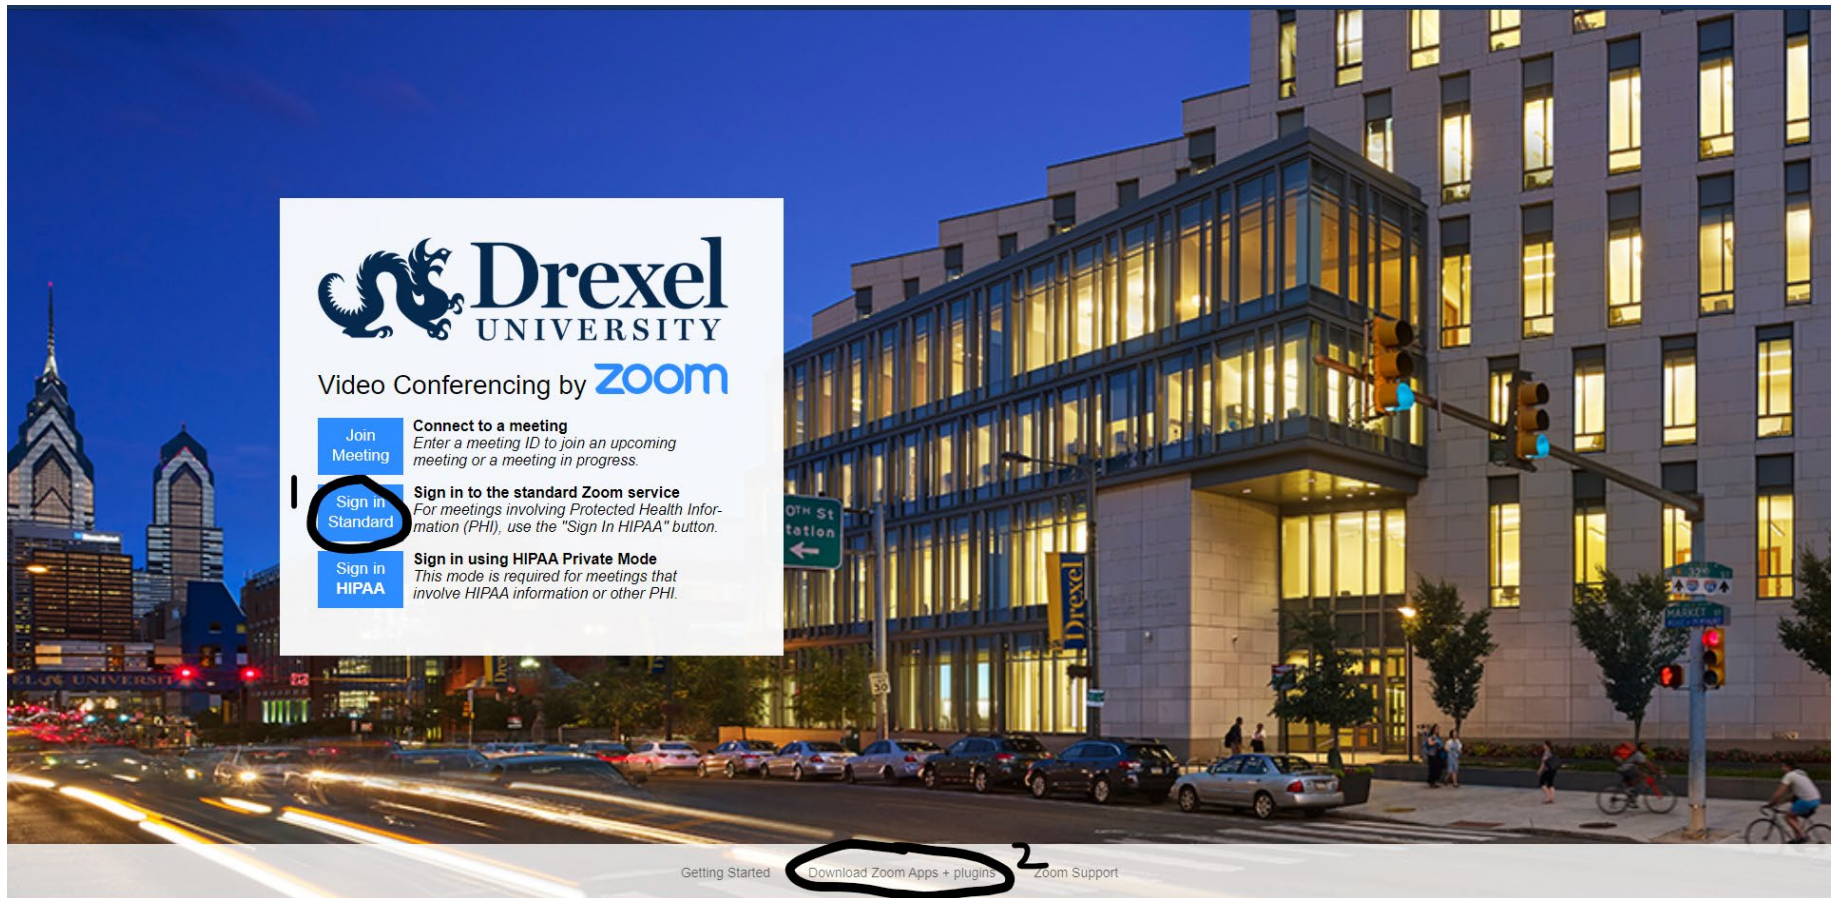

When you have completed this step, mark the item as “Reviewed” to access the link to upload your pledge of professionalism (found in the Things to Do folder).

Things to Do

General Information

Setting Up Your Zoom Account

The image shows a screenshot of the Drexel University Zoom sign-in page overlaid on a background image of a city street at night. The page features the Drexel University logo and the text "Video Conferencing by zoom". There are three main sign-in options, each with a blue button and descriptive text:

- Join Meeting**: Connect to a meeting. Enter a meeting ID to join an upcoming meeting or a meeting in progress.
- Sign in Standard** (marked with a circled '1'): Sign in to the standard Zoom service. For meetings involving Protected Health Information (PHI), use the "Sign In HIPAA" button.
- Sign in HIPAA**: Sign in using HIPAA Private Mode. This mode is required for meetings that involve HIPAA information or other PHI.

At the bottom of the page, there are three links: "Getting Started", "Download Zoom Apps + plugins" (marked with a circled '2'), and "Zoom Support".

Log in to <https://drexel.zoom.us/> and enter your Drexel credentials after pressing the "Sign In Standard" button (marked 1, above). If you want to download the apps for your computer and mobile device, click the circled area marked 2. This is highly recommended.

Date Format	mm/dd/yyyy	Example: 08/15/2011
Time Format	× Use 24-hour time	

[Edit](#)

On your Profile page, you can upload a picture to use when your video is off (1), customize your personal meeting room link (2) – I use my username so it’s easy to remember, and check that your time zone is correct (3) so meetings and classes are set up and appear on your schedule at the proper times.

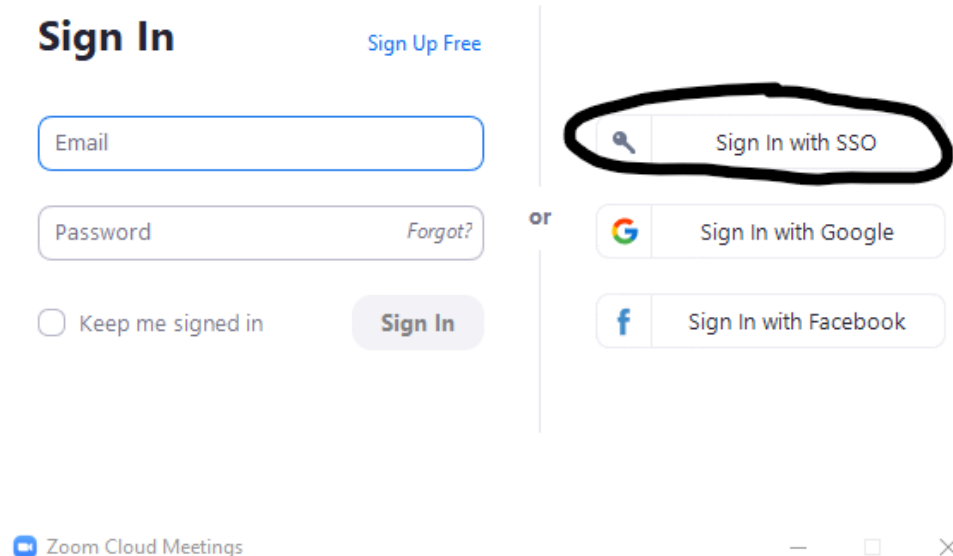

If you are having issues signing in directly to your Drexel Zoom account:

1. Sign out of any personal Zoom accounts first.
2. When you open the link for class, you should see this screen to your right.
3. Click "Sign in with SSO" and type "drexel" as the domain name to go to the Drexel login screen.

You can follow the above steps every time you try to join a meeting, or sign in on the program downloaded to your computer and it will remember your login information when launching the meeting, or allow you to switch between your personal account and Drexel one. Be sure to log in with your Drexel account to attend classes!
