Preliminary Register

INTRODUCTION

The manner of acquisition of these records is not entirely clear at this time. It appears as though the materials were given to the library's historical collections by the Center for Women in Medicine at the Medical College of Pennsylvania. The Center is now defunct and the remaining personnel do not recall how the collection came to their office.

This collection is limited in size and gives an overview of the life of Dr. Gubish.

ACCESS

The materials are open for use by researchers in the Archives and Special Collections on Women in Medicine. Limited photocopying for research purposes is available. Researchers are responsible for obtaining from the appropriate heirs permission to publish any material from this collection. The Archives and Special Collections has no information on who or where those heirs may be.
