booklet: "U.S. Treasury Department, Bureau of Narcotics, Regulations No. 5  
Relating to the Importation, Manufacture, Production, Compounding, Sale,  
Dealing in, Dispensing and Giving Away of Opium or Cocoa Leaves...",  
1938 and completed order forms for opium, [1931-36]

Box 8:

Box 8,

\*medicines and medical tools:

Hygeia screw top jar marked with cc measurements (top is missing)  
metal jar of "Bismuth-Formic-Iodide Comp."  
Joncollia Burn Emollient package (box - empty)  
Hydrosal Ointment package (box - empty)  
plastic base to hold test tubes (?) With "Wyeth's Kaomagma" printed on it  
plastic "Wonderflo" container (2 pieces - top has a spout and rubber tube hole)  
plastic tube of "iodex powder"  
cardboard box containing a 260 watt light bulb, clear glass with a corkscrew  
filament  
glass bottle of "Alkalol"  
two glass vials of "Creamalin" concentrated antacid tablets  
can of "Optus Boric Acid Powder"  
two small plastic, lidded cases with a caduceus on the tops  
glass bottle of "Chloresium Solution"  
cobalt glass bottle of "S.T. 37 Antiseptic Solution"  
cobalt glass bottle with dropper of "Auralgan"  
glass bottle of "Johnson's Baby Oil"  
green glass bottle with dropper: handwritten label: "Solution Ephedrine Sulpha in  
Normal Saline 1/2%/use as nasal drops"  
2 plastic wrapped ten packs of small boxes of Roloids  
package of cotton tipped applicators  
empty box addressed to Rose Greenberg with "the 'merry-makers' are on the  
loose again..." and an image of a drunken Rudolph the Red-Nosed  
Reindeer printed on it  
glass bottle of "Mennen Antiseptic Oil"  
glass bottle of "Atropine Sulphate" tablets (label reads "Poison")  
glass bottle with dropper with apothecary's typed label: "Soln Ephed. Sulf 1%"  
glass bottle with handwritten label: "Boric Acid Powder"  
metal container of "Purepac Boric Acid (Powdered)"  
metal container of "Antiseptic First Aid Dressing and Surgical Powder"  
small metal container of "Bismuth-Formic-Iodide Comp."  
large metal container of "Bismuth-Formic-Iodide Comp."  
metal container of "Vioform"  
metal container of "Wyeth's Surgical Powder"

Box 9:

\*correspondence, 1945-58  
notes on prescription sheets, n.d.  
\*7 small notebooks  
2 blank notebooks  
\*loose notebook pages  
list of poisons and antidotes  
"West Philadelphia Catholic Girls' High School Handbook, 1948-49"  
postcards  
booklets

    1924  
    *Bulletin Almanac*, 1966  
    *Through Many- Colored Glasses: The Child's World in Verse and Song*,  
    compiled by George Hornby, 1945  
    *If Winter Comes*, A.S.M. Hutchinson, 1921

Box 11:

Baumanometer Blood Pressure Inflation Cuffs and air pressure control  
can of Flaxseed Meal  
\*2 leather pouches containing sphygmometers (blood pressure instruments)  
cream colored plastic cannister with domed top and "Appliderm" on an applique  
small, leather navy blue bag  
opaque green glass refrigerator dish with lid  
4 "Doctor is Out" signs  
box of gauze bandage  
\*3 white coats  
black ash tray with image of progressive skeletons of a four-legged creature up to  
modern man

Box 12:

7 corked test tubes, "Property of Penna. Dept. Of Health"  
3 nesting, white and black enameled metal, kidney-shaped trays  
4 yellow plastic kidney-shaped trays

yellow plastic soap dish  
yellow plastic tub  
Ball jar containing orange rubber hose with glass tube  
2 half pint glass dairy jars  
2 instruments: rubber bulbs attached to metal and glass apparatuses, similar to an atomizer, "for catarrhal conditions"  
blue and white enameled metal bowl  
two glass intravenous bottles half-filled with physiological salt solution  
glass bottle of Benzoin tincture  
glass bottle of Mercurochrome  
glass bottle of prescription 2% Gentian Violet solution  
2 metal funnels  
can of Spray-Cyte (slide fixative)  
bottle brush  
2 glass tubes with applicators in original plastic packaging  
syringe filled with Decadron Phosphate (includes drug information)  
small white box with small metal instrument parts  
6 small tubes containing litmus paper  
metal tongs  
2 packages of Clinistix reagent strips for testing urine glucose and accompanying information  
2 boxes of serum chemistry tubes  
bottle (in box) of Bristo Isotonic Solution of Sodium Chloride  
yellow plastic cup  
sphygmometer (?) bulb  
glass, footed measuring pitcher  
glass jar containing black rubber cord  
box containing parts of a B-D manometer  
2 large cardboard tubes of adhesive plaster

This box of Rose Greenberg materials was sent to Pierce Leahy about a month after the first shipment was sent, and so its customer box number is not consecutive.

1929  
set of illustrated post cards showing vases, n.d.  
booklet: *Common Words in Radio, Television and Electronics*, 1947  
folder of physics notes, n.d.  
two virtually blank composition notebooks  
6 American Heart Association newsletters, 1984-85  
FDA Drug Bulletin, December 1984  
form letter to Greenberg from PA Department of Health re: influenza, 1961  
2 metal bookends of sailing ships

Box 14:

These items had been displayed in the built-in case at the Archives (Conference Center – EPPI) for many years:

- \*Glass jar with tongue depressors
- \*Physician's bag (small, zippered) containing supplies
- \*Haemacytometer (red case)
- \*Glass beaker with droppers, litmus paper, mercuraphen tablets
- \*Sphygmomanometer (blood pressure apparatus)
- \*Box of novacaine ampules
- \*2 empty thermometer cases (black and green)

Loose Items:

two rusted metal trays, one black, one white: the black is imprinted with the following:  
"Bersted Mfg. Co./Chicago/110 Volts/1000Watts"

wood index card file drawer containing printed cards with drug information (likely sent to Dr. Greenberg by pharmaceutical companies)

\*physician's bag containing medical instruments and medicines (one handle has come off the bag and is inside it; considerable red rot); NOTE: The instruments and medicines have been removed from the bag and are housed separately:

Box #, Physicians bag

forceps with measurement scale
