Additional Comments: Dr. Quinn Medicine Woman was a long-running CBS television series about a woman physician practicing in the American west in the 19th century. This character was written as a graduate of Woman's Med. This tape is stored with other video tapes in the collection. The Archives does not own this program (nor does it own most of the material found on video tapes in the collection - almost all have been produced outside the university), so any use of this material for anything other than research purposes, must be approved by the owner (in this case CBS Television).
