

DREXEL UNIVERSITY COLLEGE OF MEDICINE

UNDER THE MICROSCOPE

Congrats to Class of 2016

The College of Medicine's annual commencement was held at the Kimmel Center for the Performing Arts. 434 degrees were presented, including 257 MD degrees, along with 28 PhDs and 149 master's degrees from the Graduate School of Biomedical Sciences and Professional Studies. [Watch the news.](#)

Alumni Spotlight

Meet Anup Katheria, MD '04 who is currently the research director at the Sharp Neonatal Research Institute. He explains, "Drexel's innovative teaching program at the College of Medicine prepared me for a leadership role. The faculty taught us to think outside of conventional medicine and challenge current thinking in managing and treating patients." [Read his story.](#)

Killing Malaria Parasites

Drexel University scientists discovered an unusual mechanism for how two new antimalarial drugs operate: They give the parasite's skin a boost in cholesterol, making it unable to traverse the narrow labyrinths of the human bloodstream. [Learn more.](#)

FEATURED EVENTS

Alumni Weekend

Thank you to everyone who joined us for Alumni Weekend! Please [see testimonials](#) from our attendees who had a great time coming back for reunion and reconnecting with classmates. Enjoy photos as well by viewing our [online galleries](#).

Calling all Classes ending in 2 or 7! Stay tuned for details about our 2017 Alumni Weekend.
