

Pharmacology & Physiology Fall 2020 Seminars - Tuesdays @ 11:00 AM

SEPTEMBER 22	<i>Evaluating contributions of HIV-1 Tat protein to neurodysfunction and psychiatric deficits associated with neuroAIDS</i> Jay McLaughlin, PhD - Professor, Department of Pharmacodynamics, University of Florida College of Pharmacy
OCTOBER 6	<i>Astrocytic regulation of reward seeking in ethanol-dependent mice</i> Laura Giacometti, PhD - Barker Lab - Drexel University College of Medicine
OCTOBER 13	<i>In Vivo Studies of the Role of ERK 1/2 Phosphatase MKP3 in Dopaminergic Neurons on Cocaine-Associated Behavior, Dopamine Signaling and Gene Expression</i> Stacia Lewandowski (senior Pharm/Phys student) - O. Mortensen Lab - Drexel University College of Medicine
OCTOBER 20	<i>The Role of the Neurokinin-1 Receptor in Stress-Induced Drug and Alcohol Seeking</i> Jesse Schank, PhD - Associate Professor of Neuroscience, Physiology & Pharmacology, University of Georgia
OCTOBER 27	<i>Allosteric Modulation of the Dopamine Transporter: A New Opportunity in Developing Unique and Promising Therapeutics for Cocaine Abuse Disorder</i> Shaili Aggarwal, PhD - O. Mortensen Lab - Drexel University College of Medicine
NOVEMBER 10	<i>Glial Neuronal Vascular Interactions in Neurological Disease</i> Harald Sontheimer, PhD - I. D. Wilson Chair and Professor, Founding Executive Director, Virginia Tech School of Neurosciences, Commonwealth Eminent Scholar in Cancer Research; Director, Center for Glial Biology in Health, Disease & Cancer, Virginia Tech Fralin Biomedical Research Institute
NOVEMBER 17	<i>RNA Control in Pain</i> Zachary Campbell, PhD - Assistant Professor, Department of Biological Sciences, The University of Texas at Dallas
DECEMBER 8	<i>Signaling mechanisms underlying dopamine-mediated increases in HIV entry</i> Emily Nickoloff-Bybel (senior Pharm/Phys student) - Gaskill Lab - Drexel University College of Medicine
