

Pharmacology & Physiology Summer 2024 Seminars

Tuesdays @ 11:00 AM

JUNE 25

Impact of Microenvironment on Dopaminergic Immunomodulation in Human Macrophages

Breana Channer – Senior Pharm/Phys Student, Gaskill Lab, Drexel University College of Medicine

JULY 9

Modulation of Astrocytic Calcium Dynamics in Ischemic Stroke Recovery

Geena John – Senior Pharm/Phys Student, Jackson Lab – Drexel University College of Medicine

JULY 16

Allosteric Modulator of Dopamine Transporter Inhibits Cocaine-Induced Hyperlocomotion

Clara Xu – Senior Pharm/Phys Student, O. Mortensen Lab – Drexel University College of Medicine

JULY 30

***From Organoids to Therapeutics:
Unveiling Genotype-Phenotype Links in Spastic Paraplegia Type 4 with HDAC6 Inhibitors***

Neha Mohan – Senior Pharm/Phys Student, Qiang Lab – Drexel University College of Medicine

August 13

Development of Glutamate Transporter Modulators as a Non-Opioid Treatment for Neuropathic Pain

Rhea Temmermand – Senior Pharm/Phys Student, A. Mortensen Lab, Drexel University College of Medicine

Presentations will be in-person at NCB Room 8312

DREXEL UNIVERSITY
College of
Medicine
Department of Pharmacology and Physiology
