

2026

Pharmacology & Physiology Fall Seminars

Tuesdays @ 11:00 AM

**Sept
15**

Dopamine-Induced Mitochondrial Dysregulation Drives cGAS-STING and NLRP3 Inflammasome Activation

Marzieh Daniali – PhD Candidate, Gaskill Lab, Drexel University College of Medicine

**Oct
20**

HIV-Induced Trained Immunity in Microglia as a Driver of HAND Pathogenesis

Zachary Capriotti – PhD Candidate, Klase Lab, Rowan University School of Osteopathic Medicine

**Nov
10**

Regulation of NMDAR Synaptic Content by Activity-Dependent Phosphorylation on Their GluN2B Subunit

Wesley Corey – PhD Candidate, Sanz-Clemente Lab, Drexel University College of Medicine

**Dec
8**

Is the miR-106b~25 Cluster a Regulator of Effector T-Helper Cell Function?

Jason DaCunza – PhD Candidate, Ajit Lab, Drexel University College of Medicine

Presentations will be held at NCB room 8312

DREXEL UNIVERSITY
College of
Medicine
