

Suggested plan of study | Master of Science in Infectious Disease (INFD) Program
Face-to-Face/Hybrid Program | **Part-time** student | **May 2020 graduation** (projected)

Course Designation and Name¹		Course Credits	Total Credits
Year 1, Fall 2017 (August – December)			
IDPT-500S-05	Responsible Conduct of Research*	2	6
MIIM-530S-05	Fundamentals of Molecular Medicine I*	3	
MIIM-534S-05	Molecular Medicine Journal Club I*	1	
Year 1, Spring 2018 (January – May)			
MIIM-531S-05	Fundamentals of Molecular Medicine II*	2	7
MIIM-533S-05	Molecular Medicine Journal Club II*	1	
MIIM-545S-05	Introduction to Infectious Diseases*	4	
Year 2, Fall 2018 (August – December)			
MIIM-527S-05	Immunology, Immunopathology, & Infectious Diseases*	3	6
MIIM-532S-05	Fundamentals of Molecular Medicine III*	2	
MIIM-606S-05	Microbiology and Immunology Seminar*	1	
Year 2, Spring 2019 (January – May)			
IDPT-501S-05	Biostatistics I*	2	7
MIIM-524S-05	Vaccines and Vaccine Development	3	
MIIM-540S-05	Viruses and Viral Infections	2	

¹ An asterisk (*) indicates a required course in the INFD curriculum. All other courses are elective and can be substituted.

Suggested plan of study | Master of Science in Infectious Disease (INFD) Program
F2F/Hybrid Program | **Part-time** student | **May 2020 graduation** (projected)

Year 3, Fall 2019 (August – December)			4
MIIM-525S-05	Principles of Biocontainment	1	
MIIM-653S-05	Clinical Correlations in Infectious Disease*	3	
Year 3, Spring 2020 (January – May)			6
MIIM-652S-05	Research Internship in Infectious Disease	6	

Program Totals		36 credits
	Required courses*	24
	Elective courses	12
