

Office of Financial Planning

Drexel University College of Medicine has a full-time on-staff financial planner to work with all current students and alumni on their personal financial issues and concerns. This is a unique service offering as Drexel was the first medical school in the nation to establish this role.

There is a significant expense to financing a medical school education. A student needs to know how to budget appropriately and minimize their borrowing needs. This can be tricky depending on your family situation, undergraduate debt levels and credit profile.

The Office of Financial Planning is designed to address the

student's entire financial picture beyond financial aid so that DUCOM students can have the strongest financial foundation as they pursue their education, residency and practice years. Students and alumni have worked with the financial planner on all these items and more in both one-on-one discussions as well as class settings.

Our office helps with:

- | Budgeting
- | Home Buying
- | Co-signing
- | Life & Disability Insurance
- | Credit Cards and Credit Reports
- | Marriage and Family
- | Divorce
- | Taxes
- | Employee Benefits
- | Retirement Planning
- | Federal Student Loan Consolidation
- | Student Loan Refinancing Options
- | Federal vs. Private Loans
- | Student Loan Repayment Options
- | Investments
