Guide to Submitting Requests through Astra Schedule
University City Campus

Overview

The following guide will cover the steps for submitting a room request on Drexel University’s University City campus using Astra Schedule. Before submitting an event request, please be sure to use the correct event request form for the campus on which the event will be held. Using an incorrect form may cause delays in confirming the request. The normal processing time for a room confirmation is within 24-48 hours when the request is submitted during the term for which it will be held. Requests submitted prior to the start of a term will not be confirmed until the 2nd week of term.

Please note that all student and student organization room requests as well as faculty and staff requests that are not related to an academic course must be submitted to the Event Services office.

For assistance with Astra Schedule on the University City campus, contact Allison Smith at exammail@drexel.edu or (215)-571-3623.

Accessing the Event Request Forms

Procedure:
1) Click the “Events” tab.
2) Click on “Event Request.”
3) Select the appropriate form in the drop down menu.

Key Points:
Use the event request form that corresponds to the campus on which the event will be held. For events on the University City campus, use the University City request form.

The Guest User form should not be used on the UC campus. Any requests by non-Drexel staff should be submitted through the Event Services office.
Creating an Event Request

When completing the request form, enter as much information as possible. Required fields are denoted with an asterisk and must be completed for the request to be submitted successfully.

Event Information

Enter the basic contact and event information for the request.

<table>
<thead>
<tr>
<th>Contact Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contact Name*</td>
</tr>
<tr>
<td>Department*</td>
</tr>
<tr>
<td>Contact Email*</td>
</tr>
<tr>
<td>Contact Phone*</td>
</tr>
</tbody>
</table>

Key Points:
- **Contact Name** – Usually the individual submitting the request.
- **Department** – The department of the individual listed as the contact.
- **Type of Event** – Indicates the general audience of the event. Select from the dropdown menu.
- **Attendees Expected** – If the event is large with various breakout sessions, indicate the total expected headcount.

Meeting Information

Enter the basic information for the meetings within the event. Astra Schedule allows users to set up events with varying degree of complexity. An event can be:

- A single meeting on one day (Example - lecture, a make-up exam, etc.)
- A meeting that occurs on more than one day and/or meeting times (Example - review sessions for a class)
- A large event with various unique meetings and/or concurrently running sessions (Example - orientations, a conference with breakout sessions)
Event Meetings

**Key Points:**
- **Meeting Name** - The event name will be auto-filled in this field, but can be changed as appropriate. When creating an event with multiple meetings, different names can be added for each meeting.
- **Meeting Type** – Select the appropriate type from the dropdown menu.
- **Description** – If necessary, add text to describe the particular meeting. Note that this field should not be used to describe the larger event.
- **Private/Featured/Requires Room** – Do not adjust.

### Meeting Recurrence

**General Notes:**

- To ensure the appropriate passing time between events and course sections:
  - All start times should be on the hour or half hour (i.e. - xx:00 or xx:30).
  - All end times should be on the xx:20 or xx:50

- Meetings with multiple occurrence dates but the same start and end times can be created together and will be grouped.

- Meetings with one or multiple occurrence dates but different start and end times should be created separately. These occurrences will not appear grouped.
Single Meetings (i.e. Non-Recurring)

Scenario #1 - Single meeting with one occurrence (a lecture, a make-up exam)

Procedure:
1) Add start and end times.
2) Select date by clicking the appropriate date in the calendar. The date will be highlighted in blue when selected. Note that today’s date is outlined in red.
3) Click the “Create” Button

Key Points:
After clicking “Create,” the meeting information will appear in the Meetings box to the right.

If the meeting information is incorrect, click “Delete” and re-do.

Scenario #2 – A single meeting with occurrences on multiple days (Review sessions, research, etc.)

Procedure:
1) Enter start and end times.
2) Select date the appropriate date on the calendar. The date will be highlighted in blue when selected. Note that today’s date is outlined in red.

Note: If the meeting times are the same, select the additional dates from the calendar. If the meeting times are different, enter each occurrence separately, completing steps 1-3 for each.
3) Click the “Create” button
4) Establish a meeting group name.

Key Points:
After clicking “Create,” the meeting information will appear in the Meetings box to the right.

If the occurrences are at the same time they will be grouped as a single entry. No start and end dates will be listed for this entry. Expand the group by clicking the plus symbol to view the individual occurrences.

If the meeting times are different, the occurrences will appear ungrouped.

The meeting group name is auto-filled with the Event Name but can be changed as necessary. (Only necessary when meeting times are the same)
Scenario #3 - A large event with various unique meetings and/or concurrently running sessions (Example, orientations, a conference with breakout sessions)

**Procedure:**
1) Enter start and end times for the first occurrence.
2) Select the appropriate date on the calendar for the first occurrence. The date will be highlighted in blue when selected. Note that today’s date is outlined in red.
3) Click the “Create” Button
4) Change the meeting name and meeting type (if necessary).
5) Repeat steps 1-3 as necessary.

**Key Points:**
When changing the date in the calendar grid, be sure to unclick the first date entered. If not, two occurrences will be created instead of one.

After clicking “Create,” the meeting information will appear in the Meetings box to the right.
Requesting a Room(s)

Step #1 – Selecting the occurrences

Procedure
1) Select the appropriate check boxes for meetings that will require a space.
2) Click “Request Rooms.”

Key Points
Rooms can be requested for each occurrence individually by selecting one occurrence at a time or as a group, if applicable, by checking the box at the top of the list.
Selecting all occurrences at one time will still allow for requesting different rooms for each occurrence.

Step #2 – Selecting the rooms

Procedure
1) Select the desired room or rooms by clicking on “Available.”
2) Click “OK.”

Key Points
- Multiple rooms can be requested for a particular occurrence. Only select more than one room if they are needed. Do not select more than one to indicate multiple preferences.
- Rooms that are currently scheduled at the requested meeting times will appear as unavailable.
- Rooms displayed as available may not necessarily be available when Registrar staff process the request. A room request does not guarantee the room will be assigned, so confirmation of the space is only final once the requestor receives an email confirmation.
Finding Basic Room Information in the Room Request Screen

Room | Score
--- | ---
CURTIS 241 | 86
DXLPLZ GL48 | 86
CURTIS 231 | 86
PISB 106 | 83

Finding Detailed Room Information in the Room Request Screen

**Procedure**
1) Click the “+” symbol next to “Room”.
2) This will display the room capacity and the room type.

**Room Details: RANDEL 327**

*View Room Details*

- **Room Type:** Classroom
- **Capacity:** 80
- **Campus:** UC
- **Description:**

</tr>
<tr>
<td>Overhead Projector:</td>
<td>☐</td>
</tr>
</tbody>
</table>

Key Points
1) Indicate any audio-visual needs.
2) Enter any pertinent notes as needed.

Additional Notes/Comments:

Submitting the Request

**You are filling out a request for an event to be held on the Queen Lane Campus. Please use the correct ID number in the event request form.**

The normal processing time is 24-48 hours for a room confirmation ONLY. Please submit A/V assistance, room or video or if you need any help.

Contact Name:* John Doe
Tracking Requested Events

**Procedure**

1) Click on “Events” tab.
2) Click on “Events.”
3) Change My Events filter to “Yes”

**Key Points**
- From the “Events” tab, users can view events that have been requested.
- By filtering to “Yes” from My Events, user can see all events they have requested.
- **Status:**
  - Requested: Submitted, no action taken by OUR
  - Declined: No action could be taken on the requested event.
  - Incomplete: Action has been taken by OUR, but the event is not scheduled.
  - Scheduled: The event has been scheduled.
- Use other filtering options on left as necessary.
