PHS Fellowship Supplemental Form V 1-2

The V 1-2 is required by NIH for applications submitted after January 25 2011. COEUSQA-2846

About the PHS Fellowship Supplemental Form Maintenance requirements:

- **NEW Questionnaire: ID #4, V1** supports PHS Fellowship Supplemental Form 1-2. A new argument value list is supplied: Graduate Level Degrees 1-2. The Field of Training enumeration list will be refreshed with this form patch. Q ID1 still supports version 1-0 and 1-1 and should remain active until PHS or Grants.gov officially deactivates those versions. *Versioning the Questions and Questionnaire is not recommended.* The only allowable versioning of the Questions would be to alter the question language or answer length; the Questionnaire would then need to be versioned locally to include the latest question versions. *Deleting or adding questions to this questionnaire will break the ability to support the s2s submission of this form.*
- **A Question Rule should be created and applied to this s2s form questionnaire to make it MANDATORY when this form is present in the S2S form package selected. See Appendix section 3 for instructions.**
- **Parameter maintenance:**
 - **PI Citizenship:** PI_CITIZENSHIP_FROM_CUSTOM_DATA: 1 = use custom element data for PI Citizenship; 0 = use alternate, locally programmed process
 - **Define Budget Cost Elements mapped to this s2s form:**

TUITION COST ELEMENTS	('422311')	To maintain parameters: enter multiple cost elements in this format: ('XXXXXX', 'XXXXXY', 'XXXXXW') e.g. parenthetical statement, single quote at start end of each CE, comma separated.
STIPEND_COST_ELEMENTS	('400315')	To maintain parameters: enter multiple cost elements in this format: ('XXXXXX', 'XXXXXY', 'XXXXXW') e.g. parenthetical statement, single quote at start end of each CE, comma separated.

USER REQUIREMENTS Users are required to answer this form-specific Questionnaire and input budget details to fulfill all the form requirements.

Tuition: If requested for any candidate, users must create a budget and enter tuition expense lines for appropriate budget periods. To support tuition budgeting for this form a parameter was created to identify existing or created tuition cost element. These budgeted tuition amounts are published to the form section E: tuition for the Fellow Applicant.

Stipend: If requested for Senior Fellows, the user must create a budget; maintain the budget person table with the applicant fellow's base salary, and enter the stipend expense lines for appropriate budget periods. The Stipend_Cost_Elements parameter was created to identify the stipend cost element.

Narrative Types: the following narrative types are provided for use with this form version. **A new type is added for the 1-2.**

Section	Field Name	Options/Answers	Upload Narratives or Data entry
B-8.2 – 8.5	Are Human Subjects Involved?	Special Reviews	If Human Subjects special review is added, the form will check the Yes box.
B-8.6 – 8.8	Human Subjects involvement indefinite?	Questionnaire Q ID 1	A Yes or No answer is required. See Explanation, below.

Explanation: If at the time of application, plans to involve human subjects are unknown, please check "Yes". In rare situations, applications are submitted with the knowledge that human subjects will be involved during the period of support, but plans are so indefinite that it is not possible to describe the involvement of human subjects in the application. The kinds of activities that lack definite plans are often institutional awards where the selection of specific projects is the institution's responsibility, research training grants, and projects in which the involvement of human subjects depends upon completion of instruments, animal studies, or purification of compounds. The Protection of Human Subjects upload is still required.

Policy: NIH Office of Extramural Research Human Subjects Website. This site provides, in one place, DHHS and NIH requirements and resources for the extramural community involved in human subjects research <http://grants.nih.gov/grants/policy/hs/index.htm>

B-9.1-9.3	Is the project a Clinical Trial?	Questionnaire Q ID 2	Check the "Yes" or "No" to indicate whether the project is a clinical trial. See Explanation, below.
-----------	----------------------------------	-------------------------	--

Explanation: The NIH defines a **CLINICAL TRIAL** as a prospective biomedical or behavioral research study of human subjects that is designed to answer specific questions about biomedical or behavioral interventions (drugs, treatments, devices, or new ways of using known drugs, treatments, or devices). Clinical trials are used to determine whether new biomedical or behavioral interventions are safe, efficacious, and effective. Behavioral human subject research involving an intervention to modify behavior (diet, physical activity, cognitive therapy, etc.) fits this definition of a clinical trial. Human subject research to develop or evaluate clinical laboratory tests (e.g. imaging or molecular diagnostic tests) might be considered to be a clinical trial if the test will be used for medical decision making for the subject or the test itself imposes more than minimal risk for subjects.

Policy: Clinical Trials Registration in ClinicalTrials.gov (Public Law 110-85): Competing Applications and Non-Competing Progress Reports NOTICE OD-08-023 <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-08-023.html>

Section	Field Name	Options/Answers	Upload Narratives or Data entry
B-10.1-10.3	Is this an NIH-defined Phase III clinical trial?	Questionnaire Q ID 3	Check the "Yes" or "No" to indicate whether the project is an NIH-defined Phase III clinical trial. See Explanation, below.

Explanation: An NIH-defined Phase III clinical trial is a broadly based prospective Phase III clinical investigation, usually involving several hundred or more human subjects, for the purpose of evaluating an experimental intervention in comparison with a standard or controlled intervention or comparing two or more existing treatments. Often the aim of such investigation is to provide evidence leading to a scientific basis for consideration of a change in health policy or standard of care. The definition includes pharmacologic, non-pharmacologic, and

behavioral interventions given for disease prevention, prophylaxis, diagnosis, or therapy. Community trials and other population-based intervention trials are also included.

Policy: Clinical Trials Registration in ClinicalTrials.gov (Public Law 110-85): Competing Applications and Non-Competing Progress Reports. NOTICE OD-08-023 <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-08-023.html>

3. APPLYING the Fellowship Questionnaire with a Question type Business Rule:

The following is the shortest and simplest rule you can build to invoke the Grants.gov form-supporting Questionnaires.

The following steps will build a Question Rule Condition test for the 1-2 PHS Fellowship Supplemental Form.

- Navigate to the Business Rules tab for the highest Proposal Routing Node in your unit Hierarchy (I maintain these system-wide rules at the 000001 node).
 - Click Add to generate a Create Business rule window.
 - Select rule type of Question, and Module: Proposal Development
 - Enter a description that will help you clearly identify this rule: suggested: "Invoke the 1.2 PHS Fellowship Grants.gov Form"
 - Click Add to open the Condition Editor window;
 - Enter a description (this will become a listed condition statement on the prior Rule window) suggested: "1-2 PHS398 Fellowship form"
 - Note: the user message field on this window is not active.
1. In the lower Condition Editor panel, Add a condition line:
 2. From the Function Tab, select = "Specified Grants.gov Form" and drag it to the new Condition line. The Arguments window will appear.
 3. Double-click the Argument Name field to display the look-up values; Select PHS Fellowship Supplemental V1-2, and then click OK.
 4. Click OK to close the Arguments window.
 5. Complete the Condition Test by selecting [Equal To] [True]

This Question Rule will be available for selection in the Questionnaire "Used In (module)" section, Rule drop-down list. You can EDIT Questionnaire ID #1 to apply this rule (the rule condition will automatically update if you modified the existing selected question rule).

With ID#4 highlighted, click Edit – but click **NO** to the "create a new version" prompt!!!

Select your Invoke the Fellowship Form rule from the available Question Rules, and please mark it as Mandatory = YES, as the questionnaire data is required to fully populate this form. If you like, you can modify the Label in the Used In section – this is the questionnaire label that End Users see – I've kept this label neutral as to form version to avoid confusing users. If you have any suggestions for user-friendly form-supporting Questionnaire titles in future releases, please let me know.

With this Question Rule, the end user proposals will not invoke this Fellowship questionnaire until they have successfully applied a Grants.gov opportunity that has the V1-2 of the PHS Fellowship Supplemental Form.

Please follow Proposal User Guide instructions for detailed budget instructions. Cost Element mapping to Budget Categories in your local environment will impact where your expenses appear on these forms. Modular Budget Expenses are mapped to the COEUS Modular Budget screen of the Budget Version marked as Final. Modular expenses can be manually entered, or synchronized from the detailed budget.

C. Total Direct and Indirect Costs (A + B) Funds Requested (\$)

All budget periods will be populated based on the user maintained entries in the Modular Budget window, as follows:

Box A. Direct Costs

Direct Costs Less Consortium F&A: the sync'd value from the Detailed budget is rounded up to the nearest \$25,000.

Consortium F&A: total of subcontract F&A expenses. This value does *not* get rounded to the nearest \$25,000. (These expenses are really direct costs in the prime budget, but can be subtracted from the prime total when submitting Modular budget to NIH.)

The cost elements for subcontract F&A are defined in the COEUS parameters 'SUBCONTRACTOR_F_AND_A_GT_25K' and 'SUBCONTRACTOR_F_AND_A_LT_25K'.

Total Direct Costs: This is the sum of the **Direct Costs Less Consortium F and A** and **Consortium F and A**.

B. Indirect Costs

The indirect costs will be detailed by rate. If there are multiple applicable rates for the period, a detailed indirect cost line will be populated for each rate.

Cognizant Federal Agency: The information (agency name, POC name and phone number) is populated from the proposal's Organization record, using the rolodex entry for the maintained cognizant auditor.

PHS398 Research Training Program Plan V 1-0

About the PHS 398 Research Training Plan 1-0

In order to validate Training Program opportunities, Citizenship information must be provided for all Investigators. This solution used for these submissions is similar to what was provided for the PHS Career Development and PHS Fellowship forms. If your organization is using a custom (external) data solution, the parameter PI_CITIZENSHIP_FROM_CUSTOM_DATA should be maintained to 0; alternatively, set this parameter to 1 to utilize the consortium distributed Custom Element and supporting Argument Values that populate the Person/Proposal Person Other tab.

Parameters for Training forms:

PHS398 Research Training Budget V 1-0

COEUSQA-2089 About The PHS 398 Training Budget V1-0 form's data requirements:

Users are required to answer this form-specific Questionnaire and input budget details to fulfill all the form requirements.

Questionnaire: Questionnaire ID #3, version 1 supports this new NIH Training Budget form. (Question ID's 66 through 98) *Versioning the Questions and Questionnaire is not recommended.* The only allowable versioning of the Questions would be to alter the question language or answer length; the Questionnaire would then need to be versioned locally to include the latest question versions. *Deleting or adding questions to this questionnaire will break the ability to support the s2s submission of this form.*

Trainees: The number of Trainees in the this form's categories (Undergraduate, Predoctoral, Postdoctoral, short term, full term, single degree, dual degree, non-degree seeking, degree seeking) required utilizing the Questionnaire for the data to populate PHS 398 Training Budget form, as this information could not be easily captured from the COEUS Budget.

Stipends: Because the stipend rates are regulated by NIH, a data table has been created using the current 2009 NIH rates (NOT-OD-09-075) to calculate and populate this form based on the entries in the Questionnaire. The exception is for 'Other' trainees, in which case the stipends and tuition are taken from the questionnaire; user should still input these expenses in their detail budget for internal records. The number of trainees for all remaining trainee categories must be input in the questionnaire; the stipend expense will be calculated and published to the form from stipend rate tables. User should also enter the stipend expense in their COEUS line item budget for internal record.

New COEUS Table & Columns added to support Stipend calculation from questionnaire entries:

table name:osp\$training_stipend_rates

Columns: career_level, experience_level, stipend_rate, effective_date

TABLE MAINTENANCE: Code Tables for Application Administrator maintenance provided COEUSQA-2296:

Code Tables>Proposal Development>Training Stipend Rates. Supports Questionnaire calculation reference and s2s form validations (PHS389 Training Budget 1-0).

Add a new row for each of the 11 Stipend Rates with its Effective Date according to the NIH annually published rates.

Tuition: Users must enter tuition expense lines for each trainee category. To support tuition budgeting for this form six (6) parameters have been created to identify existing or created tuition cost elements. These budgeted tuition amounts for the Trainee categories for this form are published to the Trainee budget form.

New Parameters maintained to specify Trainee Tuition detail:

TUITION_OTHER_COST_ELEMENTS

TUITION_POSTDOC_DEG_COST_ELEMENTS

TUITION_POSTDOC_NONDEG_COST_ELEMENTS

TUITION_PREDOC_DUAL_DEG_COST_ELEMENTS

TUITION_PREDOC_SINGLE_DEG_COST_ELEMENTS

TUITION_UNDERGRAD_COST_ELEMENTS

To maintain parameters: enter multiple cost elements in this format: ('XXXXXX', 'XXXXXY', 'XXXXXW') e.g. parenthetical statement, single quote at start end of each CE, comma separated.

Other budgeted expenses: Users must enter budget line item costs for Training Related Expenses (TRE) cost and Trainee Travel cost elements are parameterized. The consortium expenditures (subcontract) cost elements utilize the existing parameter.

TRAINEE_TRAVEL_COST_ELEMENTS

TRAINING_REL_COST_ELEMENTS

SUBCONTRACT_COST_ELEMENTS

To maintain parameters: enter multiple cost elements in this format: ('XXXXXX', 'XXXXXY', 'XXXXXW') e.g. parenthetical statement, single quote at start end of each CE, comma separated.

NIH has certain funding opportunities that will utilize this Training Budget form and the RR Budget form. There is a field in the Training Budget form that supports populating additional expenses. The value published excludes the cost elements identified for this form to avoid duplication of expenses.

Budget Justification: A new narrative type has been provided for this budget justification. Narrative type: PHS_Train_Budg_Just, ID number 130.

Questionnaire required to complete the form: ID #3: PHS 398 Training Budget Form version 1-0

Supporting Questions: ID numbers 66 through 98 in Question Group: Grants.gov PHS Training

Question Rule suggested to invoke this form-required Questionnaire:

The Question Rule can be limited to just the Specified Grants.gov Form (PHS 398 Training Budget V1-0), or can add references Sponsor, Sponsor Group, and Grants.gov Submission.

When the Rule is applied to the Questionnaire ID #3: Module Development Proposal, select the Mandatory flag of YES to make answering this Questionnaire a proposal validation required prior to submitting for approval routing.

The Questionnaire contains a repeat of the questions to support the form capability of up to a five (5) period budget. If the selected opportunity only allows a three (3) years of support, when presented with the question "Are you requesting funds for Budget Period 4?" and "Are you requesting funds for Budget Period 5?", answer 'No' to these questions to leave those budgets blank. See additional budget creation tips after the Questionnaire instructions.

4.4.2 Cases

COEUSQA-2330 Corrections to budget expense mapping to PHS398 Training Budget 1-0

COEUSQA-2296: Code Tables>Proposal Development>Training Stipend Rates. Supports Questionnaire calculation reference and s2s form validations (PHS389 Training Budget 1-0). Stipend Rate and Effective Date columns should be maintained with the most relevant NIH published rates.

PHS Training Budget Creation Tips:

- The Training Budget form cannot be print/previewed until stipend expense line items are entered in the COEUS budget to match the trainee numbers and stipend levels answered in the Questionnaire.

- At print/preview, a COEUS validation error will alert the user of the budget deficit for the annual and cumulative requirements. The user only needs to enter the annual funds requested. How detailed the stipends are entered in the budget depends on your local campus practices.
 - A SINGLE line item for stipend expense in each budget period is sufficient to support the form.
 - Multiple appearances of the same cost element (one for each trainee type and stipend rate) will aggregate to validate the form. The detailed entry in the budget may prove to be easier to review and revise the number of trainees in each category.
- CAUTION:** Stipend funds in your COEUS budget in EXCESS of the Questionnaire calculated amounts will NOT cause an error and WILL appear in PHS398 Training Budget: Section B: Other Direct Costs, in the line **"Total Direct Costs from the R&R Budget Form (if applicable)"**, and will be included in the total costs on both the Training Budget form AND the **SF 424 (R&R)** form.

Example Validation Error for Questionnaire answered with 1 of each Trainee in all categories (except "other") for Year 1; Years 2 & 3 each request 8 Postdoctoral trainees: all Full-Time, Degree-Seeking, 1 at each experience level.

The excess amount appears in the Total Direct Costs from the R&R Budget Form line – the value \$8,588. These funds will also publish on the SF 424 R&R form. Users should be careful to use the authorized NIH Stipend Rate for each category to coordinate with the Questionnaire calculated amounts. An Excel workbook is available from the Consortium to aid in coordinating the entries.

TRAINING SUBAWARD BUDGET ATTACHMENT(S) FORM

Instructions:

On this form, you will attach the PHS 398 Training Budget forms for all subawards in your grant application.

The means to obtain a training subaward budget attachment is provided here on this form, using the button below. In order to extract, fill, and attach each additional training subaward budget form, simply follow these steps:

- Select the button labeled "Select to Extract a Training Subaward Budget Attachment", which appears below.
- Save the file using a descriptive name, that will help you remember the content of the supplemental form that you are creating. When assigning a name to the file, please remember to give it the extension ".pdf" (for example, "Training_Subaward_Budget_MyOrganization.pdf"). If you do not name your file with the ".pdf" extension you will be unable to open it later, using your Adobe Acrobat Reader software.
- Using the Open icon in Adobe Acrobat Reader, open the new form that you have just saved.
- Enter the subawardee's training budget information, in this supplemental form. It is essentially the same as the PHS 398 Training Budget form that you see in the main body of your application.
- When you have completed entering information in the supplemental form, save it and close it.
- Return to this "PHS 398 Training Subaward Budget Attachment(s)" form.
- Attach the saved supplemental form, that you just filled in, to one of the "Attach Training Subaward" blocks provided below.

Important: Please attach Training Subaward Budget forms, using the blocks below. Please remember that the files you attach must be PHS 398 Training Budget PDF forms, which were previously extracted using the process outlined above. Attaching any other type of file may result in the inability to submit your application to Grants.gov.

Other Organization vs. Performance Site:

DUNS numbers are not populated on this form for Performance *Sites*.

Performance site details are populated from Rolodex entries which do not contain DUNS number.

Other Organizations are populated from the Organization table, which **does maintain the DUNS number**.

The screenshot shows a form titled "Project Performance Site Location 2". It includes a checkbox for "Local or tribal government, academia, or other type of organization." Below this, there are input fields for "Organization Name" (containing "2nd-Purdue"), "DUNS Number" (empty and highlighted in yellow), and "* Street1" (containing "Spartan State Program Offices").

Form End Notes:

V 1.4 reverts the DUNS number entry *requirement* for performance sites to OPTIONAL. The DUNS Number field is an optional data field at all times. This is the only change between version 1.3 and 1.4. You may notice a yellow highlight on the empty DUNS number field when the application is processed at NIH eCommons for Performance Sites. The lack of DUNS number data does not fail validation at either Grants.gov or eCommons at this time.

Prior Form Versions use these instructions for either the 1-1 or the 1-2 form versions. The only difference between the versions is how additional performance sites are supplied to the sponsor. The 1.1 version required an uploaded attachment, where 1.2 generates Site fields, as needed.

RR Key Person Expanded V 1-2

The 1-2 version added fields for Degree Type and Degree Year and expanded Project Role options. User entries are required to populate the forms as noted by yellow-highlighted, bold boxed cells in the tables.

COEUSQA-2528 Updated form 1-2 to For NIH Sponsor Codes: map all Non-PI Investigators as Co-Investigator, map Multi-PI investigators as PI, not Co PD/PI which NIH does not recognize as a valid role. Takes advantage of the enhanced Proposal Role selection available in 1-2 form version schema. To utilize the Co-Investigator default role, NIH sponsor codes must be maintained in the Sponsor Groups" (upper, lower or mixed case) Sponsor Hierarchy under a node called "NIH".

COEUSQA-2363: Remapped Investigator/Key Person Degree Details for RR Key Person Expanded 1-2 forms to better support Lite. Degree Data now mapped from the Proposal Person> Degree Details screens

Prior Form Versions:

Expanded: The only addition to the recent 1-2 version are the fields for Degree Type and Degree Year. The degree data is required for other forms, so this should not be impactful to the COEUS user.

Original Key Person was limited to the number of persons populated.

Consistent with the requirements of the Animal Welfare Act [7 U.S.C. 2131 et seq.] and the regulations promulgated by the Secretary of Agriculture [9 CFR, 1.1-4.11], NSF requires that proposed projects involving use of any vertebrate animal for research or education be approved by the submitting organization's Institutional Animal Care and Use Committee (IACUC) before an award can be made. IACUC approval must be received prior to an award. Questions regarding this requirement should be directed to the cognizant NSF Program Officer.

For applications involving the use of vertebrate animals, sufficient information must be provided within the 15-page project description to enable reviewers to evaluate the choice of species, number of animals to be used, and any necessary exposure of animals to discomfort, pain, or injury.

4.4.2 Cases:

COEUSQA-2451: 1-3 Issued: Updates do not involve schema changes. Grants.gov corrections required fields mapping .Changes: When field 4.a is selected field 4b becomes mandatory: When field 4.c "Yes" is selected, field 4.d is mandatory.

COEUSQA-2282: 4.4.2 download scripts updated to include Form supporting Narrative Facilities restored as a narrative type option (missing from 4.4.1 script).

Prior Form Versions:

Use these instructions for either the 1-1 or the 1-2 form versions. Minor differences between the 1-1_V1.1 and 1-2_V1-2 of this form is the addition of YNQ Question G6 on historic places designation in Field 5 (relocated from the NSF Cover Page V1-1), which changes the field numbering for the remainder of the form. Otherwise, the change in field numbering is the only noticeable change. The supporting narrative upload types are unchanged – just the field numbers where they appear on the printed form. The form logic change in V1-3 is not apparent to the end user.

4.4.2 Case: COEUSQA-2351 Restored missing item in the SF424 v.1.2 (box 8a - "Is the application being submitted to other agencies? What other agencies?") Data was transmitted to G.gov, but did not appear on the COEUS-generated printout.

4.4.2 Case : COEUSQA-1693 Infrastructure funded. Modification to Cost Sharing Submission to Grants.gov and Printing of Grants.gov forms. Control submission of cost sharing expense committed on the S2S forms ONLY.

There are two (2) levels of control with Submit Cost Share: Summary Panel and Line Item Detail. 1) Deselect on the Summary panel to submit NONE (default is checked to submit); or 2) Deselect at the budget line item level to submit/not submit selected cost share commitment. SF424 (R&R) impact is in section `15, field B (Total Non-Federal Funds) and field C (total Federal and Non-Federal Funds). For the RR Federal/Non-Federal budget forms, this functionality impacts printing values in the Non-Federal (\$) columns.

Prior Form Version info:

Versions 1-0 and 1-1 utilize narrative type: "Additional Congressional Districts." Congressional district information data was relocated from the SF-424 at version 1-2 and is now supplied on the Performance Sites form.

Special notes on Federal Identifier; Field 4a:

There are several methods to populate the Federal Identifier field to meet the varied sponsor requirements for this data. Please read your specific opportunity instructions and sponsor application preparation guides to understand what data and format should be provided for your application. **END USER maintenance of the Sponsor Proposal No. field will trump any linked/system-filled method described later in this section as sponsor instructions and formatting vary so wildly.**

Examples of some known usage of "federal identifiers" for s2s submissions:

NIH:

For a "New" Type of Application, leave the Sponsor Proposal No. field **blank**.

For a "New" Type **Changed/Corrected** Application, enter the **Grants.gov Tracking Number** of the previous application that you are correcting in the Sponsor Proposal No. field to fill the Federal Identifier field (Item 4) field. If you are unable to recall the Grants.gov tracking number, you can enter "N/A."

For a "Resubmission", "Renewal", or "Revision" Type of Application, enter the **NIH IC and serial number** of the previously assigned application/award number (e.g., CA987654) in the Sponsor Proposal No. field to fill the Federal Identifier field (Item 4).

- Resubmissions: the IC/Serial number is in the prior COEUS Proposal record, in the Grants.gov panel, Submission Details tab, Agency Tracking ID field.
- Renewals and Revisions: the IC/Serial number is part of the Sponsor Award Number and should be located in the COEUS Award. Otherwise, confirm this number at NIH eCommons.

For a "Resubmission", "Renewal", or "Revision" **Changed/Corrected Application**, enter (or retain the number from the previous submission attempt if it was correct) the IC and serial number of the previously assigned application/award number (e.g., CA987654) in the Sponsor Proposal No. field to fill the Federal Identifier field (Item 4)

DOE:

For a **Renewals** or **Revisions** to the Department of Energy, a **DOE Project Identifier** is often required. Follow the opportunity instructions for the data to insert in the Sponsor Proposal No. field in COEUS Proposals.

NOTES on Automatic Population of Federal ID will occur under the following conditions:

- a. IF Federal Identifier is required
THEN
- b. IF the Proposal Type = Renewal, Continuation or Revision,
AND the Sponsor Proposal No field is null,
AND the parameter: FEDERAL_ID_COMES_FROM_CURRENT_AWARD parameter is set to 1
THEN, the system looks for a value in the Award No. field (from that Award record) to populate the Federal ID.
 1. If both Sponsor Proposal No. and Award No. fields are null, then the following hard error occurs: *[Upon validation]*
Renewals, Revisions, and Continuations require the sponsor's prior award number in the "sponsor proposal number." For NIH, this is the 2-letter, 6-digit IC and serial number assigned during the prior review.
Important: the
- c. IF the proposal type = New,
AND the Submission type = Change/Corrected,
AND the Sponsor Proposal No. is null,
OR proposal type = Resubmission
AND the Sponsor Proposal No. is null,
THEN the system looks for Original Proposal field (from that Institute Proposal record) to populate the Federal ID.
 2. If the system finds that both Sponsor Proposal No. and Original Proposal No. fields are null, then the following hard error occurs *[Upon validation]*:
 - *Renewals, Revisions, and Continuations require the sponsor's prior award number in the "sponsor proposal number." For NIH, this is the 2-letter, 6-digit IC and serial number assigned during the prior review.*
 - *OR- Resubmissions require the sponsor's prior award number in the "Sponsor Proposal Number." For NIH, this is the 2-letter, 6-digit IC and serial number assigned during the prior review.*

Prepare your Subaward Upload file BEFORE uploading to COEUS:

- Locate and download an appropriate opportunity from the Grants.gov website – be especially mindful to your opportunity instructions and requirements because there are now a variety of subaward attachment forms available for sponsor posted opportunities.

The screenshot shows the 'Application Filing Name' field at the top. Below it are two columns of document lists. The left column, 'Mandatory Documents', contains 'SF424 (R & R)'. The right column, 'Mandatory Documents for Submission', is empty. Below these are 'Optional Documents' and 'Optional Documents for Submission'. The 'Optional Documents' list includes 'RR FedNonFed Budget', 'Research And Related Subaward Budget (Total Fed)', 'Research And Related Other Project Information', 'Research And Related Budget', 'Research And Related Senior/Key Person Profile', 'Research & Related Personal Data', and 'Project/Performance Site Location(s)'. The 'Optional Documents for Submission' list contains 'R and R Subaward Budget Attachment(s) Form'. Between the lists are buttons for 'Move Form to Complete', 'Move Form to Delete', 'Move Form to Submission List', and 'Move Form to Delete'. A green callout box points to the 'Move Form to Submission List' button with the text: 'First, select the form from "Optional Documents " and then click the => to move it to "..for submission" (already "moved" in this figure)'. Another green callout box points to the 'R and R Subaward Budget Attachment(s) Form' entry in the submission list with the text: 'Click on the form name, and then click the Open Form button to jump to that form.' There are 'Open Form' buttons at the bottom of each submission list.

- Open the Adobe opportunity form set, select the Subaward form and “Move” it to the “for Submission” box to open the form.
- Extract the subaward budget attachment—automatically the File Name field is prepared with the name like “RR_Budget_A-V.1.pdf” – you can alter this name prior to saving (just don’t delete the “.pdf” file extension).
