

### ENGLISH

We are committed to creating the most supportive and intellectually stimulating environment for students interested in the English major.

To enhance our programming, we bring in experts to discuss the latest topics in their disciplines at our annual Week of Writing.

Students also have the opportunity to participate in the College of Arts and Sciences' unique Community-Based Learning courses where they learn from an entirely different set of teachers: our community members. From writing life journals with hospice patients, to exploring war stories alongside veterans, students collaborate with a whole new set of classmates.
