

ENGINEERING, COMPUTING, & DATA ANALYSIS

AT DREXEL UNIVERSITY

DREXEL UNIVERSITY
PHILADELPHIA, PA

Because Advancement Can't Wait

A NOTE FROM OUR DEAN OF UNDERGRADUATE ADMISSIONS

Are you passionate about data, critical thinking, and technology? Does your curiosity fuel your desire to comprehend complex robotics and solutions? If so, the engineering, computing, data analysis, and information systems programs at Drexel University might be right for you.

Drexel is a premier global R-1 level research institution that has been preparing students through practical and experiential education for over 125 years. Our innovative model of learning pairs world-class academics with real-world experience, uniquely preparing students to thrive and excel in their fields.

Having served as a successful blueprint of career training since 1919, our cooperative education program (known as co-op) provides students with the opportunity for professional work before graduation. Drexel Dragons experience their chosen industries with the leaders of today and gain the necessary firsthand knowledge to become the leaders of tomorrow. Students leave our doors on graduation day with a full understanding of the path they have chosen.

This is a place that will allow you to develop your skills and encourage you to use them for the greater good. Utilizing academic and volunteer-based partnerships with our community, our students are among the most engaged students in the nation. They are not only making an impact on campus but also in the city of Philadelphia and around the world through academics, service, and leadership.

At Drexel, you can make your mark on the world. I encourage you to explore our engineering, computing, data analysis, and information systems programs – along with everything else this great University has to offer you.

Sincerely,

Michael J. Keaton
Dean of Undergraduate Admissions

Drexel's Perelman Plaza

ENGINEERING

Drexel Bossone Cancer
Research Lab

Much of human progress can be attributed to the ingenuity of engineers. It is the curiosity of those who choose this path that drives creation and leads the inventions that improve the functionality of civilization. Virtual reality, the skyscraper, and the electric car are all results of an inquisitive mind built upon a scientific approach. Through these innovations, engineers change the way that we interact with one another and allow us to enjoy a heightened quality of life. Whether you wish to usher in the next wave of renewable energy technology, 3D-print biological tissue for cancer research, or build the cities of tomorrow, Drexel will hone your skills and bring you to the forefront of engineering.

From day one, you'll connect with your field through experience-based academics. You'll also make great strides in the betterment of society at large through Drexel's cooperative education program and by performing collaborative research side by side with thought leaders in your respective industry. By the time you graduate and are ready to enter the workforce, you will have already built a résumé of real-world experience and knowledge that will set you apart from your peers. Learn more about our engineering programs at drexel.edu/academics.

COMPUTING &
DATA ANALYSISDrexel Computing
Classroom

Engineers, scientists, marketers, writers, and artists utilize advanced tools in order to accomplish their goals. All of these fields have seen great leaps in technological advancement thanks to breakthroughs in computation and data manipulation. Between the engineering and science that leads to the next generation of computer technology and the data collection that fuels a company's growth, a Drexel education will provide you the foundation needed to drive advancement in your industry.

Whether your goal is to test thermal imaging hardware, create today's most powerful computer processor, or develop a groundbreaking smartphone app, Drexel provides the knowledge you'll need by focusing on the connection between people, information, and technology. With the opportunity to teach code to the next generation and participate in Philly Codefest (Drexel's annual 36-hour student-organized hardware and software hackathon), you'll tackle both local and global challenges that society faces today.

This unique combination of traditional learning and hands-on experience gives you the opportunity to collaborate with leading professionals in your field and make a true difference in today's data-driven world. Learn more about our computing and data analysis programs at drexel.edu/academics.

INFORMATION SYSTEMS

The way that we interact with and use technology enables us to make informed decisions on how we govern finance, supply and demand, and even politics. Without the ability to navigate complex processes efficiently, humanity would never have landed on the moon, developed artificial intelligence systems, or created the smartphone, allowing us to scour the Internet for any knowledge we seek. Those who wish to enhance the way that we utilize technology have vastly improved the quality of lives around the world.

At Drexel, you'll learn the intricacies of high-level system design, databases, and human-computer interaction through diverse research opportunities and real-world application. Whether you're applying information technology in a Fortune 500 company, security firm, or government agency, you will work hand in hand with leading professionals to bridge the gap between complicated computer data and business. Our cooperative education program will blend your classwork into firsthand experience as you translate people's needs into robust systems that improve efficiency — all before you graduate.

Through Drexel's information systems programs, you can use your technological, business, and communication skills to enhance the human experience and make an impact on the world around you. Learn more about our information systems programs at drexel.edu/academics.

Drexel Rush Gardens

NASA Zero Gravity Plane,
Johnson Space Center

SCHOOL OF BIOMEDICAL ENGINEERING,
SCIENCE AND HEALTH SYSTEMS

The School of Biomedical Engineering, Science and Health Systems promotes health and quality of life through education, research, and innovation that integrates engineering and life sciences in a global context. The school teaches students to develop solutions and see opportunities to translate science into saving lives and improving health while encouraging expansive collaboration and networking that will prepare them for the world’s emerging biomedical challenges.

LEBOW COLLEGE OF BUSINESS

Drexel’s LeBow College of Business, which houses the School of Economics, offers dynamic academic programs informed by our long history of industry partnerships and guided by renowned faculty experts. Students tackle real-world business problems in the classroom and in hands-on learning opportunities through Drexel’s renowned cooperative education program (co-op), consulting projects, international residencies, case competitions and more. LeBow students across all programs receive support from dedicated academic and career advising staff and connect with industry leaders through events, site visits, mentoring, and more.

COLLEGE OF COMPUTING & INFORMATICS

The College of Computing & Informatics instills the knowledge and skills necessary for students to lead and innovate across industries in a rapidly evolving technological landscape. Building on Drexel University’s exceptional foundation of entrepreneurship and cooperative education, the College provides unparalleled professional experiences and the on-the-job training that is vital to preparing today’s students for tomorrow’s world.

COLLEGE OF ENGINEERING

The College of Engineering continues its long tradition of education that brings the theoretical into real-world application. The academically comprehensive, globally engaged institution prepares students to engineer change and lead in fields like architectural, civil, computer and cybersecurity, mechanical, materials science, chemical engineering, and more. Through practical experience, and knowledge gained from renowned faculty who engage in novel research and teach the foundations of engineering and courses in emerging subjects, students connect to the world around them and to the exciting advances that aim to solve society’s greatest challenges.

Drexel Campus

SCHOOL OF BIOMEDICAL ENGINEERING,
SCIENCE AND HEALTH SYSTEMS

The School offers many resources for expanding thinking and encouraging collaboration with other colleges and schools at Drexel. A few highlights include:

- **Bossone Research Enterprise Center**, which features various specialized labs dedicated to research in biomedical systems and imaging, biomechanics, biomaterials and tissue engineering, bioinformatics and computational engineering, cardiovascular engineering, neuroengineering, and drug delivery.
- **Coulter-Drexel Translational Research Partnership Program**, which promotes, develops, and supports innovations through translational research for improving patient care.

LEBOW COLLEGE OF BUSINESS
& SCHOOL OF ECONOMICS

Housed in Gerri C. LeBow Hall on our University City Campus, LeBow and the School of Economics offer a range of experiential opportunities and resources to support student learning. Highlights include:

- **The Deborah A. and Dominic J. Caruso ‘80 Undergraduate Career Services Office**, which guides students in interviewing, networking, résumé writing, and career exploration to prepare them for co-op positions and post-graduate employment.
- **Dornsife Office for Experiential Learning**, which provides students with practical opportunities for project-based learning and an understanding of business problem solving.
- **Center for Business Analytics**, which enables student participation in data-driven industry collaboration and the application of analytics across industries.
- **Institute for Strategic Leadership and the Chapel Leadership Program**, which provide a hands-on approach to understanding leadership trends and behaviors through experiential learning and real-world connections.
- **Trading Lab**, a technology lab with Bloomberg Terminals, allows students to manage a real-world equity portfolio, The Dragon Fund, that oversees \$3 million.

COLLEGE OF COMPUTING & INFORMATICS

The College is located in a brand new, state-of-the-art building that was designed with the student experience in mind. Students and faculty work closely together on a range of projects, as well as with colleagues and fellow students from across the University. A few highlights include:

- **Metadata Research Center**, advancing research in metadata, semantics, and other areas that address today’s most pressing information management challenges.
- **Philly Codefest**, a signature event for the College of Computing & Informatics, this annual 36-hour software and hardware hackathon brings together Drexel students with working professionals to focus on creative solutions to real-world problems.
- **Women in Computing Initiative**, an extensive, college-wide, strategic initiative dedicated to increasing the number of women students across the college.
- **Entrepreneurial Game Studio (in collaboration with Westphal College of Media Arts & Design’s Game Design and Production program and Drexel’s ExCITE Center)**, where students develop and produce potential game ideas.

COLLEGE OF ENGINEERING

The College is located on our University City Campus in several buildings across campus with labs and new equipment that prepares students to take on the challenges in industry and research.

- **The Innovation Studio**, a 20,000-square-foot makerspace combining design and fabrication where first-year engineering students begin doing hands-on engineering design from their first term all the way through senior design in their culminating project. Working together, students generate concepts and then take their designs to production via 3D printers, soldering stations, the wood shop, or the Drexel Machine Shop.
- **A.J. Drexel Nanomaterials Institute (DNI)**, the College’s newest lab, is one of the best-equipped in the world for the synthesis, characterization, and electrochemical testing of novel materials, with room for up to 50 researchers. Across the College, research opportunities are widely available to undergraduates through the University’s STAR program, department programs, and faculty research labs.

EXPERIENTIAL LEARNING

In 1891, A.J. Drexel founded this University with the dream to establish an institution that would fully prepare its students to excel in their future careers. To meet his vision, Drexel has developed a model of learning that takes students beyond the typical collegiate experience by combining world-class academics with real-world application. Our students are challenged to apply what they've learned in the classroom by working alongside mentors and industry professionals who push the boundaries of knowledge and achievement.

As a leading research institution, Drexel carries a long and storied history of innovation. Here, you'll not only assist faculty and staff with major projects, but you'll also have the opportunity to take the lead in your own studies — including graduate-level research during your first year — in our state-of-the-art facilities and labs. You will be encouraged to ask important questions and consider how the answers you find impact the world around us.

For over 100 years, our curriculum has also featured our cooperative education program, which enables students to test-drive different careers while learning side by side with the leaders of their respective fields. Through Drexel Co-op, students can build an impressive résumé and gain up to 18 months of professional work experience in the United States and globally at Fortune 500 companies, nonprofits, startups, a variety of governmental agencies, and more. The majority of these positions are full-time and paid, and those that are carry a median six-month salary of over \$19,000. Co-op will allow you to explore your options and narrow down your interests, ensuring you are on a fulfilling career path that meets your needs and expectations. With each experience, you'll gain a unique working perspective that can't be found in any textbook, allowing you to serve as a knowledgeable resource for fellow classmates and professors as well as inform classroom instruction moving forward.

The Steinbright Career Development Center, one of the largest collegiate co-op and career services teams in the world, sets you up for success at Drexel from day one. Whether you're looking for potential co-op employers, research opportunities, or post-graduate endeavors, Steinbright connects you to Drexel's constantly growing network of employers and industry leaders while also building your résumé and interview skills through workshops and information sessions. Our unique combination of world-class career services and dedicated counseling professionals will help guide you to discover your interests and develop your professional tools.

ENHANCED OPPORTUNITIES

At Drexel, learning goes well beyond the traditional classroom. We encourage our students to pursue different opportunities, such as studying abroad, immersing themselves in the local community, and developing their own course of study.

Honors Program: At the Pennoni Honors College, the Honors Program serves as a catalyst for enhanced intellectual exploration. Composed of curious and active learners, this program offers exclusive access to Philadelphia events, advising and mentoring, dedicated housing, and a Living Learning Community, along with specialized opportunities to complete service and develop leadership skills. Honors students in this program are scholastic ambassadors at Drexel, raising their academic experience to the next level.

Civic Engagement: We believe in the importance of giving back to local communities — there are always opportunities to make an impact and serve the community here. Students can get involved on campus through Drexel's Lindy Center for Civic Engagement and the Dornsife Center for Neighborhood Partnerships during community-based learning courses and volunteering for community service. But our impact doesn't stop there; our dedication reaches out globally to improve the world around us.

Study Abroad in Capri, Italy

Custom-Designed Major: The Custom-Designed program is suited for highly motivated students whose interdisciplinary curiosity and ambition cannot be satisfied by a traditional major. This path enables you to pursue an individualized course of study in place of an existing major, either by developing a plan with your advisor or by combining existing majors and minors to match your career goals. As a student in this unique program, you'll be advised by staff from the Pennoni Honors College and mentored by a Drexel faculty member who has expertise in at least one of the areas in your course of study.

Global Opportunities: These options include study abroad, international co-op, and more. All Drexel students can take advantage of study abroad, which enables them to live and learn in another country while immersing themselves in the culture. Using our worldwide connections, students have been able to choose from six continents and 65 countries! International co-op takes study abroad one step further; students not only live in another country but also gain work experience as they test-drive a potential career. Students currently on international co-op are working in over 35 countries.

Independence Hall, Philadelphia

A CONNECTED COMMUNITY

Philadelphia, Pennsylvania, is a revolutionary town founded on revolutionary thinking — much like the ambition Drexel students have for influencing change in the world. As the sixth largest city in the United States, the City of Brotherly Love is an extension of our campus and, as a student here, you'll take full advantage of all it has to offer.

Philly culture is known for being as diverse as its many neighborhoods. From our University City Campus in the hub of Philadelphia's higher-learning community, it's easy to get to the stadiums in South Philly, take in some history in Old City, and enjoy the park in Rittenhouse Square. When you're not in classes, there is plenty to do, no matter how you like to spend your free time. Being in the fourth most walkable city in the country according to Walk Score has its perks: concerts, performances, restaurants, and athletic events are all easy to access.

Public transportation is just steps away from campus — it's easy to enjoy an authentic cheesesteak and then visit the famous Philadelphia Museum of Art. You will find that all areas of the city are interconnected by simple means of travel, and getting to historic sites around the city or connecting to various locations across the country is an easy task. Living in Philadelphia provides access to everything from farmers' markets in Lancaster County to ski and snowboarding locations in the Pocono Mountains to the best beaches in the Mid-Atlantic.

The Writers Room

FIRST-YEAR APPLICATION PROCESS

There is no typical Drexel student. Our students are ambitious, curious, complex, and bold. Candidates are selected based on their ability to thrive in our unique academic environment and make contributions to our diverse community. Through a contextual and holistic review process, we carefully consider each applicant, evaluating their personal qualities, academic journey, and intellectual promise.

Application Deadlines

EARLY DECISION NOVEMBER 1
Early Decision is the perfect option for students who know Drexel is the number one school for them. This is a binding admission plan; if admitted, students must withdraw all other active applications and commit to enrolling at Drexel.

EARLY ACTION NOVEMBER 1
Early Action means that students can apply by an earlier deadline to receive an admission decision sooner than students who apply Regular Decision. Early Action admission is not binding.

REGULAR DECISION JANUARY 15
Through the Regular Decision application process, students will receive a decision in early spring.

Submitting Your Application

First-year student applications are accepted through either the Common Application or the Coalition Application.
drexel.edu/undergrad/apply

Standardized Test Scores

Drexel University is Test-Optional for students applying for fall 2022 and 2023. For non-native English speakers, there may be additional testing requirements.
drexel.edu/undergrad/apply/tests

Financial Aid

Financial aid is available to domestic and international students in the form of merit scholarships and need-based grants. There are a few applications you should learn about to maximize the financial aid you are eligible for, such as the Free Application for Federal Student Aid (FAFSA) and CSS Profile.
drexel.edu/undergrad/financing

TRANSFER APPLICATION PROCESS

There are many reasons you may consider transferring to Drexel; as you make your transition, we'll be here to help you every step of the way. Drexel has a vibrant and active transfer community. Qualified applications are considered on a rolling basis through all terms. Applications must be received one month prior to the start of the term for which you are applying.

Application Deadlines

STARTING TERM	APPLICATION REVIEW BEGINS IN
Fall (September)	December
Winter (January)*	October
Spring (Late March/Early April)*	November

*Not all majors enroll in our off-terms

Priority Deadlines

STARTING TERM	DEADLINE
Fall (September)	APRIL 15
Winter (January)*	NOVEMBER 15
Spring (Late March/Early April)*	FEBRUARY 15

*Not all majors enroll in our off-terms

There may be other deadlines for international students. Please visit **drexel.edu/undergrad/apply/deadlines** for more information.

Submitting Your Application

Transfer students may submit applications through the Common Application or Drexel University's Admission Application.
drexel.edu/undergrad/apply/transfer

Financial Aid

Drexel offers competitive financial aid opportunities for transfer applicants. While students will be reviewed for scholarships during the admissions review process, we highly recommend filing the Free Application for Federal Student Aid (FAFSA) and CSS Profile as soon as possible to maximize their eligibility for support. **drexel.edu/undergrad/financing**

VISIT OPPORTUNITIES

There are many different ways to visit Drexel University throughout the year, both on campus and virtual, including Information Sessions and Tours, Open Houses, Transfer Tuesday and Thursday events, and more. Whether you'd like to learn about restaurants in the area, what to do in University City, or even the best places to hear some local music, you can see it all by visiting us in Philadelphia — or through our virtual tours.
