INSIGHTS ON EQUALITY FOR WOMEN

Uneven Paths to Shared Leadership

Indra Nooyi recently announced that she will step down as CEO of PepsiCo, in part to spend more time with her family. She joins a growing list of departing female chief executives. This year alone, there has been a 25 percent drop in women CEOs at S&P 500 companies.

It's time for us to consider how achieving top leadership positions may be different for women than for men, and what can be done to even out those paths.

**Delegate Feature: Shauntay Nelson**

A democracy director at Wisconsin Voices, [Shauntay Nelson](mailto:shauntay@wisconsinvoices.org), a Vision 2020 Delegate in Wisconsin, has been keeping busy with several initiatives under her belt.

This past March, she was featured in [Common Cause Wf's video](https://www.youtube.com/watch?v=12345) on why judicial recusal is important and how it impacts Wisconsinites. Nelson is also very active in redistricting reform through the passage of county resolutions in Wisconsin, such as "County Board Resolutions in Support of Nonpartisan Legislative and Congressional Redistricting." Forty of 72 counties in Wisconsin have signed a resolution in support of
a nonpartisan redistricting process.

When Nelson isn't busy with policy work, she is working with the City of Milwaukee to increase voter turnout for early voting in the November election by working with the I VOTE BECAUSE Campaign. They will have bus ads running for two months leading up to the November election, featuring the faces of community members along with quotes about why voting is important to them.

In joining Vision 2020 and the rest of the country in celebrating Women’s Equality Day, Nelson and the Wisconsin Women’s Network are hosting an event to honor the history of women’s right to vote on August 23 in Madison.
