National Caregiving Summit Recap

[VIEW A RECORDING OF THE SUMMIT!](#)

The fully virtual National Caregiving Summit took place on March 4, 2022 featuring keynote speaker U.S. Senator Kirsten Gillibrand and panelists from the National Women's Law Center, the Center for WorkLife Law at the University of California, Hastings and Family Values @ Work.

Experts and allies alike discussed the challenges facing caregivers, the professional and financial penalties involved with caregiving, and the need for such structural changes as universal paid family leave.

Lynn Yeakel, founder, Vision 2020 and VisionForward

The event commenced with a touching tribute to Vision 2020 and VisionForward Founder Lynn Yeakel, who passed away on January 13, 2022. Voiced by Deborah Brittain, the video featured an overview of Lynn's passions, achievements and legacy.

A main theme was the unintended consequences of pandemic-era changes in the workplace for caregivers.

"I work with law firms, and the pandemic increased the visibility of the burden of caregiving on women lawyers," said one attendee. "There were a lot of changes...more employee resource groups focused on parenting and caregiving, more flexibility, a wholesale shift to more hybrid workplaces."

Moving forward, VisionForward remains committed to the goal of ending the

caregiving penalty. We will continue to advocate for improved caregiver accommodations as we work to create a future with full gender equity for all.
