What's Most Needed Now

A Message From the President of VisionForward

I won't say we are "new and improved," because I am so proud of all that our national coalition accomplished during our decade as Vision 2020. More to the point, in planning our September 1 rebranding, the Vision 2020 team was not seeking to do the same thing, only better; it was seeking to do what's most needed now to advance the cause of gender equity.

Vision 2020 announced its new name, mission and strategies at the National Congress in June. It is reprinted below. Building on that foundation over the summer, the team selected two timely issues as the targets for collective impact efforts — one in the focus area of economic equity and a two-part effort in the area of civic engagement.

Caregiving penalties. The pandemic has made clear that women are overwhelmingly responsible for — and penalized for — caregiving. In this historic moment, families and employers are experiencing the economic pain and disruption caused by attitudes and institutions that undervalue the care of children, the elderly and other dependents. It is a systemic problem, and as such, it can only be changed by a sustained collective effort — a national movement of the kind our coalition is uniquely suited to lead. Economic equity cannot be achieved until we elevate the value of caregiving and eliminate caregiving penalties in all forms.

Unequal representation in legislatures. America's 50 state legislatures enact laws and control services that directly affect the lives of women and families. And yet women currently hold only 31% of the seats in state legislatures nationwide. Fixing this requires a two-pronged civic engagement effort: empowering more women to run for these seats and motivating more voters to show up for the midterm elections in which many of these seats are filled. Although a record number of women voted in the 2020 presidential election, one out of three eligible women didn't vote. In the 2018 midterm, 45% of women didn't vote. A major effort is needed to raise awareness of the

impact of decisions being made at the state level and the benefits of having more women involved in making those decisions.

As VisionForward works to define a detailed action plan, the team will be seeking to connect with individuals and organizations already working on the issues described above or interested in pursuing those causes. If you can help us make those connections, please email visionforward@drexel.edu.

Empowering Photo of the Month

Hoisting bottles of grape juice at Toast to Tenacity are Lynn Yeakel, founder

and president of Vision 2020 (now VisionForward), and Dianne Semingson, co-chair of the Women 100 Advisory Committee. The annual toast, celebrated simultaneously in cities across the nation, honors the suffragists on Women's Equality Day, the anniversary of the 19th Amendment to the U.S. Constitution establishing women's right to vote. The toast is made with grape juice because the amendment was passed in 1920 during Prohibition.
